

WHERE INSPIRATION FLOWS

CONSUMER GUIDE **JANUARY 2021**

**VADO**

---

# WELCOME TO THE VADO WAY.

As specialists in bathroom brassware, **VADO** are proud to have over 30 years' experience in designing and developing products that are built to last. From our home in deepest Somerset, England, our engineering team ensure we use only the finest materials and components in our products, so whichever range you choose, outstanding quality comes as standard.

At **VADO** we are passionate about protecting the environment for future generations and we have a renowned reputation for developing products that deliver the best possible user experience whilst using water and energy sustainably. Not only do our products care for the planet, but we are also reducing our footprint across other areas of our business:

That is why this brochure is printed on 100% certified FSC paper, using materials that have been sourced from responsibly managed forests and comply with the highest social and environmental standards.

We have also partnered with the World Land Trust's Carbon Balanced Paper programme, which will offset any emissions produced whilst making this brochure. Our donation will help protect threatened habitats, that would otherwise been destroyed.

In addition, we are working towards plastic free product packaging; we are making great progress and are committed to all packaging for **VADO** products being fully recyclable by 2025.

# THE PERFECT CHOICE FOR YOUR HOME.

## BRASSWARE IS OUR SPECIALITY.

At **VADO**, we believe in turning the ordinary into the extraordinary. Our products are beautifully designed for those looking to make a statement with their brassware and expertly engineered to keep up with the demands of modern bathroom living.

Our carefully curated portfolio ensures we have a collection to suit everyone's tastes; from traditional choices right through to contemporary, with a range of finishes inspired by trends, but always remaining timeless in design.

In addition, we are leading the way in new bathroom technology, whilst **providing innovative solutions to water and energy sustainability.**

Our products have been designed with you in mind and are harmonious with all sanitaryware, allowing you to add a personal touch to reflect your own style. So when you choose **VADO**, your choice of coordinating items is unlimited - with **VADO** you can really **let your inspiration flow**.

For extra reassurance, when you choose a **VADO** product, you are getting the very best of British design and exceptional quality.

- 15 year guarantee
- Tested to industry leading standards
- Fitted with the best European components
- Low pressure operation at 0.2 bar

## HOME COMPATIBILITY

**Our products work in conjunction with all household plumbing systems for easy installation.**

Throughout this brochure, we have highlighted which products work best with either a low, medium or high water pressure system. Just look out for:

**LP** (Low Pressure, 0.2 - 0.5 bar)

**MP** (Medium Pressure, 1 - 1.5 bar)

**HP** (High Pressure, 3 bar)

If you need help identifying your pressure, our team of experts in our Aftersales and Product Support Team can be contacted, on the number in the front of this catalogue, to answer any questions you may have.

THE UK WILL  
SEE EXTREME  
WATER  
SHORTAGES  
IF WE DON'T  
ACT NOW.

BY MAKING SMALL CHANGES, WE CAN ALL SAVE  
WATER AND MAKE A REAL DIFFERENCE TOGETHER.

Did you know that the UK water supply is under significant pressure to meet with our ever-growing water needs? With our population estimated to grow by a further 5 million people in the next 20 years and our personal daily usage almost doubling in the last 5 decades to 143 litres, **the UK will need approximately 3435 million litres of additional water by 2050.**

“TODAY THE SOUTH EAST OF ENGLAND HAS LESS WATER AVAILABLE PER HEAD THAN THE DESERT STATES OF SYRIA AND SUDAN” *The Environment Agency*

Recent research suggests only **1 in 10** of us see water consumption as a key environmental consideration, yet in current times, over **80%** of us appreciate access to clean water to wash our hands.

IF WE ACT NOW AND MAKE SMALL CHANGES, WE CAN PROTECT OUR WATER SUPPLY FOR YEARS TO COME...

The Government in conjunction with our industry body the **BMA** have targeted water consumption of **110 litres per person per day**. We at **VADO** believe this is achievable through small changes in our bathroom product choices and habits.

# SAVE WATER WITHOUT COMPROMISE.

**VADO** are proud to develop products that are beautifully designed, provide an indulgent user experience, whilst saving water and caring for our planet.

Look out for products with these labels **H<sub>2</sub>ECO™** and **ECOturn** to be confident you are fitting the best in water and energy-smart brassware, that will **provide immediate savings** on your water and energy bills **without compromising performance**.

Dual Core  
Aerator

## H<sub>2</sub>ECO™

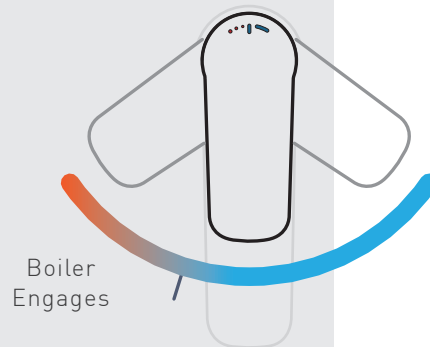

Many water saving products are fitted with a form of flow limiter that restricts water flow, regardless of your water pressure, resulting in a compromised performance.

We do not believe in less than perfect. That is why **VADO** have partnered with industry leaders **Neoperl** to create a flow regulator that is designed to **optimise water flow no matter what your pressure**.

**VADO eCOturn** products are designed to reduce the need to use hot water when it is not required, saving on hot water wastage, helping to **prolong the lifespan of your boiler** and ultimately **saving you money...**

**VADO** products with **eCOturn** technology, have an increased cold-water area, allowing you to consciously choose when you want to use hot water by actively turning the lever. This means simple tasks that do not require hot water, such as brushing your teeth, can be done **without unnecessarily engaging your boiler** and heating the water you do not need.

†

Appropriate products from our portfolio are WRAS approved for additional reassurance and for your water safety. A WRAS approval, certified by the Water Regulations Advisory Scheme, is an easy way to demonstrate that a material or water fitting is of a suitable quality and standard.

## LEADING COMPONENTRY FITTED AS STANDARD

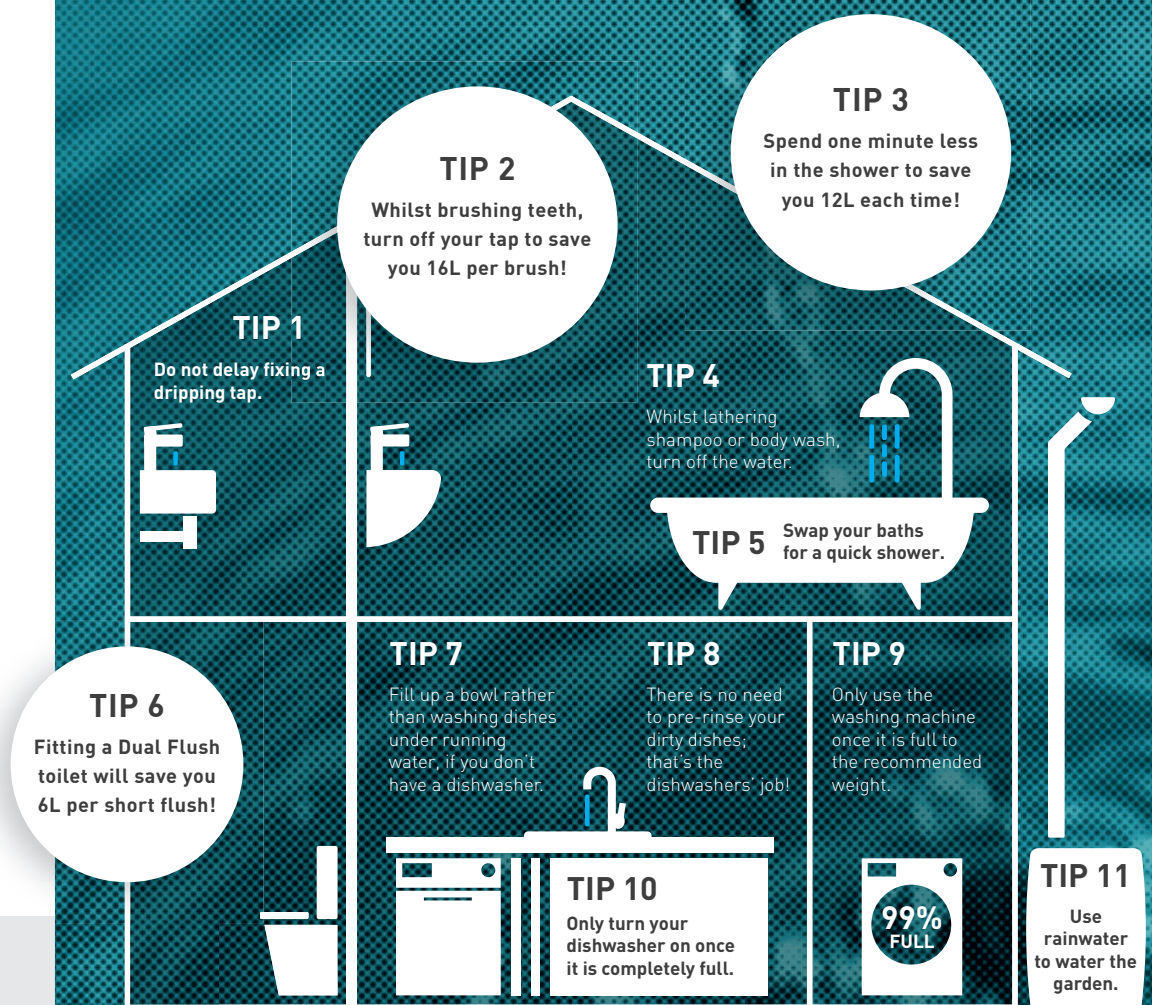

**We only fit the very best European components**, to ensure our products stand the test of time, even in the busiest bathrooms:

# EVERY DROP MATTERS.

In addition to our water and energy saving product offering, we have some more helpful hints and tips to help you start your journey to a water-smart life.

# MAKE YOUR DREAM BATHROOM A REALITY.

Our hand-selected **VADO** independent retailers are ready to help you **begin your water smart journey**.

We carefully select and train all of our **VADO** independent retailers to ensure you have the best experience when selecting your perfect bathroom.

Our stockists will not only help you to choose the right **VADO** taps and showering products to deliver you a great experience day in day out, they will also guide you in choosing the best coordinating sanitaryware and tiling options to create your dream bathroom.

## STEP 1

Choose from one of our many bathroom brassware collections. We have a wide variety of styles to suit individual tastes.

## STEP 2

Find your local stockist. If you don't already know who your local stockist is, visit [vado.com/stockists](https://vado.com/stockists) to find your local verified **VADO** independent retailer.

## STEP 3

Visit your verified **VADO** independent retailer to discuss all of your bathroom design and installation requirements with a fully trained bathroom adviser.

## STEP 4

Reinvigorate yourself and your senses in your beautiful, new bathing space.

# EXPERIENCE OUR PRODUCTS IN FULL 3D.

EXPERIENCE IN **VIRTUAL  
INSPIRATION**

SCAN ME

Cut out and place the VIV tracker on your basin, bath or  
shower wall to bring your favourite brassware to life.

# TEXTURE.

Texture has always played an essential role in home interiors; from plush textiles that create warmth and depth to your design scheme to raw and natural woodwork that brings an element of nature indoors. Connecting our senses through touch can spark a multitude of emotions as well as evoking nostalgic memories, so it is no wonder the texture trend is here to stay.

Investing in beautiful brassware can add an extra dimension to your texture story, as well as an all-important tactile quality for optimal performance.

OMI-185-50-C/P

---

**Inspired by Trends,  
Engineered to last**

Want to go bold with texture? Knurled Accents fuses elegant brassware with striking, textured controls. Inspired by Industrial architecture, Knurled Accents adds a masculine edge to a soft, feminine design scheme.

In complete contrast, the geometric textures found within our Omika collection, passionately designed by interior designer Jo Love, embody elegance with a delicate touch. The intricate detailing formed into the collection's controls echo the elements within nature, blurring the lines between indoors and outdoors.

---

For a modern approach to texture in the bathroom, make a statement with deep and richly pigmented colours as well as sculptural tiles for an instant layer of texture.

# KNURLED ACCENTS

— A collection of bold contrast, Knurled Accents injects a tactile quality to the polished elegance of chrome. Displaying an artistic chiselled character, Knurled Accents is a sensory modernist style choice for those looking to create a unique statement with their brassware.

## LIFE ACCESSORIES

# PHASE

The tapered angles of this eye-catching collection bring a note of boldness to the bathroom. A strong design that cleverly fuses cubic forms with calming curves to create a

**For further information visit**  
**[www.vado.com/phase](http://www.vado.com/phase)**

look that is both strong yet sophisticated. The Phase collection works particularly well with square or rectangular basins. The gently contoured angles and simple flat surfaces work in-sync demonstrating the quality of this innovative design.

# TÉ FALLS

Take inspiration from luxurious spa interiors with the Té Falls collection of boutique-chic waterfall designs. An innovative aesthetic inspired by cascading streams of clear water, the cool, clean, contemporary look works particularly well within elegant, exclusive interiors. A striking angular product, Té Falls captures the essence

of luxury within a smart cubic design, blending a modernist style with the natural allure of flowing water.

## LEVEL COORDINATING ACCESSORIES

# OUTSIDE INSIDE.

With wooden surfaces, autumnal shades and open, natural lighting high on the agenda for contemporary bathroom designers, bringing the outside in has never been so important. Made increasingly popular by influencers across the globe, house plants have become the latest to join the outdoor's indoor scene as a quick, easy and effective fix for freshening up the bathroom.

As we look to recreate that sought-after, lounge-like haven, the recent influx of living room furniture has gone hand-in-hand with a range of indoor and outdoor plants; living proof of the bathroom becoming an extension of the house (and indeed the garden).

---

### Thriving in Humidity and Moderate Light

For smaller bathrooms, hanging baskets and wall mounted shelving can provide the perfect location for spider plants and air plants as they require little attention, obtaining most of their water from moisture in the air. For larger bathrooms, small wooden stools and tables can offer a more aesthetically-pleasing home for ferns, orchids or aloe vera, each thriving in humidity and moderate light. Alternatively, the full-bodied snake plant or Aspidistra plant can happily reside in a complementary pot on the floor.

---

WG-179M-CP  
ATM-SFSRK/2-C/P  
SPA-185B-C/P

For those who liken their shower space to a personal rainforest retreat, Chinese evergreens and dragon plants would be an ideal choice for your bathroom, flourishing in steam and low-lit areas. Whilst bamboo epitomises the fascinating colour, form and size that plants can bring to interior design.

The easy to use, flat surface lever, gentle circular lines and sleek surfaces work in harmony to create a modern, yet highly flexible design.

# SENSE

— The Sense collection is a seamless blend of classic and contemporary design, combining elegant curves and smooth linear elements. Its fluid, circular silhouette adds a touch of understated elegance and simple sophistication to both modern and classic bathrooms.

# CLOAKROOM

For environments where space is at a premium, the Cloakroom collection offers innovative and stylish space-saving solutions.

Attractive and highly practical, each design offers the elegance and ingenuity of standard size collections, yet is uniquely tailored to maximise on efficiency.

Created to work in unison with smaller basins, Mini Mono products work particularly well within compact environments such as cloakrooms, shower rooms and en-suites.

# I-TECH

Streamlined, touch-free designs, combine the essential elements of both function and form. Sleek curves, linear angles and smart technology are cleverly blended within a simple easy-to-use sophisticated design. With a clean and uncomplicated look, I-Tech is the perfect choice for modern bathrooms. When installed with a thermostatic valve, this

product provides a highly practical water efficient solution. The infra-red touch-free technology makes I-Tech a first-class option for hard-working environments.

# BATH OR SHOWER?

TAB-148-OMI-C/P | OMI-HEAD-C/P | WG-EFSA/SQ-C/P | OMI-185-20-C/P | OMI-133-C/P

**When planning a bathroom renovation, there are lots of choices for you to make; one of these is deciding how to make the most of your space. No matter how big or small your bathroom is, you can incorporate the latest design trends whilst adding your own unique style to achieve a truly exclusive bathroom aesthetic.**

The heart of any large master bathroom is always the centrepiece freestanding bath, accompanied by a floor mounted bath tap to create a luxurious, inviting focal point. Alternatively, if you are looking to take the spa experience to the next level, sunken bath tubs will add a touch of grandeur and sophistication.

### Combining Your Bath and Shower

If your bathroom is short on space, why not combine your bath and shower? By adding a wall or ceiling shower over your bath will allow you to gain extra bathing space without hampering your design. For this area, try to avoid using shower curtains. Although far more affordable, shower curtains often reduce light and visual space whereas clear, glass screens will enlarge your bathroom appearance and are much easier to keep clean.

A walk-in-shower embraces the trend for luxurious bathroom living and space maximisation. Boasting stepless access and room for multiple outlets, these shower spaces remain seamlessly connected to the rest of the bathroom for complete visual freedom.

# TABLET VALVE

**Compact in form and unique in operation**, Tablet is an industry-leading thermostatic shower valve that embraces the latest innovations in water performance.

Combining VADO's **all-flow** functionality with industry-leading, thermostatic technology, Tablet ensures a fully immersive showering experience even at low pressure.

**To view the entire range visit**  
[www.vado.com/tablet](http://www.vado.com/tablet)

## ALL-FLOW EXPLAINED

### FLOW CONTROL

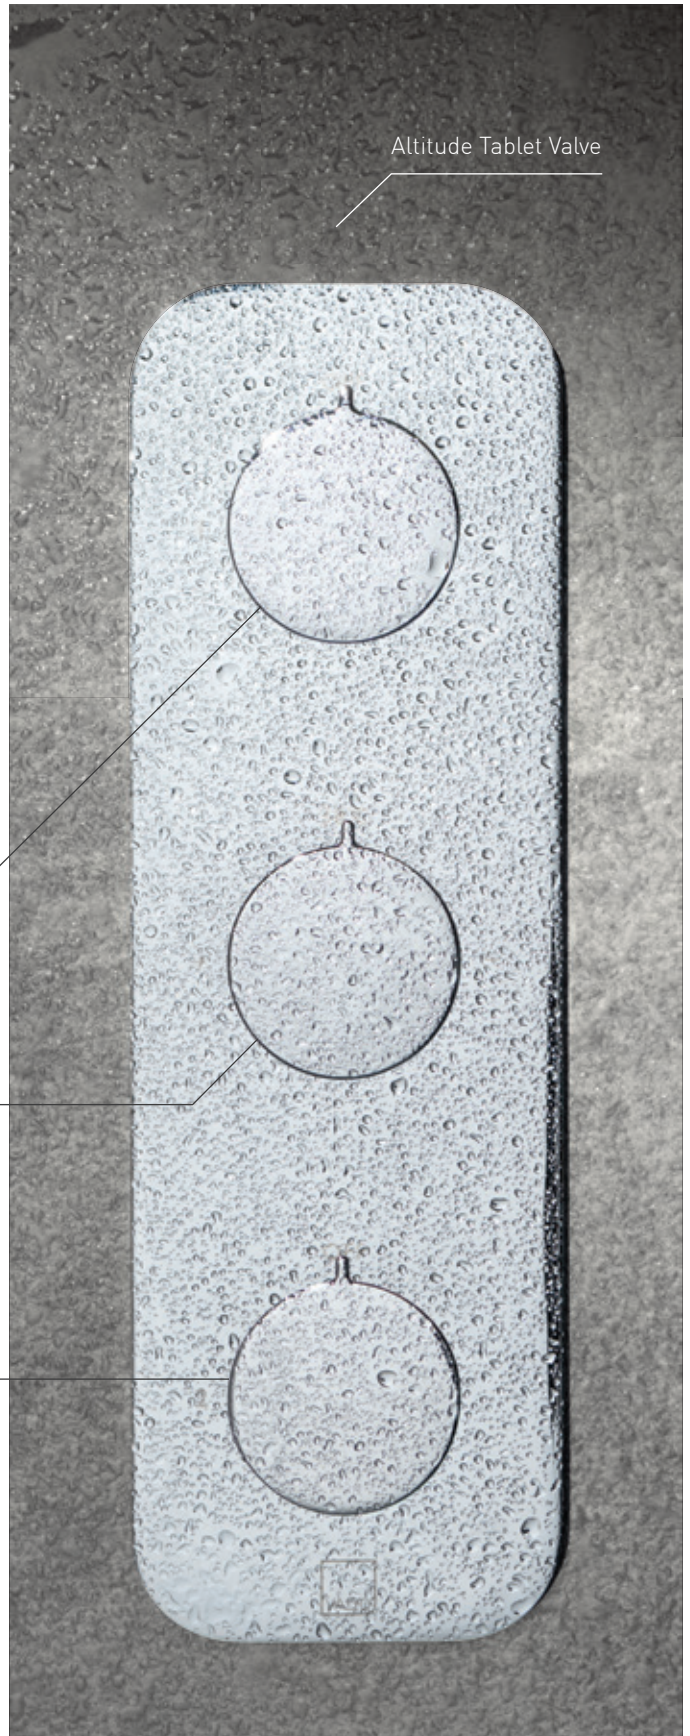

Independently controls the flow of water for up to two outlets which can be operated simultaneously using **all-flow** functionality.

### TEMPERATURE CONTROL

To ensure the safety and protection of all users, our leading thermostatic technology ensures temperature stabilisation to prevent scalding and sudden pressure fluctuations.

### FLOW CONTROL

Controls the flow of water to one outlet.

#### KEY FEATURES

- Leading thermostatic technology
- Exceptional safety from temperature fluctuations
- Max pre-set temperature and auto shut-off
- **all-flow** technology delivers water out of multiple outlets simultaneously
- Buttonless 38° temperature stop
- Compatible with all premium ranges, including Omika, Kovera, Altitude and Notion
- Delicately proportioned handle and back-plate
- Contemporary British design
- Ergonomic soft-turn handles
- Compatible with showers and bath fill

# CAPSULE

Capsule introduces a luxurious bathing solution that uses a unique pull-out handset to offer simple, close-up showering.

Featuring a robust concealed box beneath the bath, Capsule also eliminates water ingress by sending it straight to the waste.

For further information visit  
[www.vado.com/capsule](http://www.vado.com/capsule)

The Capsule handset is a perfect, seamless blend of rounded and linear design, creating an excellent addition to any bath.

## KEY FEATURES

- Slim box design to fit all baths
- Available in both round and square
- Highly flexible anti-kink hose
- Concealed box eliminates water ingress
- Robust construction for years of trouble-free use
- Compatible with all Tablet and DX valves
- Concealed pull-out 150cm hose

Connects directly to the waste outlet via a non-return valve.

Zoo Single Function Mini Kit  
Celsius Square DX Valve  
Bath Filler Waste and Overflow

#### DID YOU KNOW?

If you have a shower over the bath, you can thermostatically control your shower and your bath using any of our concealed valves.

**Visit pages 96-111 to select your valve.**

Controlled by either wall or deck mounted valves, our family friendly bath filler wastes remove the need for protruding bath spouts for a streamlined finish.

Bath Filler Waste

The bath filler wastes' minimal, compact design guarantees a simple style statement.

# BATH FILLER WASTES

Suitable for contemporary and traditional bathrooms, our collection of bath filler wastes integrate overflow waste and bath fill functionality into one simple solution.

Designed to remove water excess, each bath filler waste also acts as a primary bath outlet; a great way to make a functional plumbing item an integral part of your bathroom design.

Enjoy your shower without a prominent bath filler tap compromising space.

## KEY FEATURES

- Integrates overflow waste and bath fill functionality
- Compatible with all Tablet and DX valves ensuring thermostatic operation\*
- Compatible with all 3 Hole Deck Mounted Bath Shower Mixers without Spouts
- Available in round and square designs
- Small, refined profile guarantees minimalist appearance

\* Please note, thermostatic operation is only applicable when used with a Tablet, DX valve or Sensori SmartDial

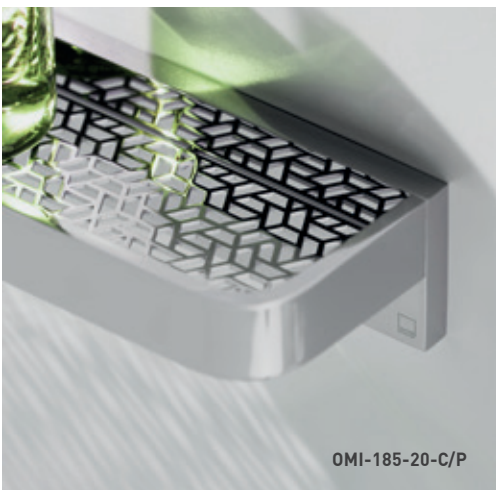

# ACCESSORISE.

**The master bathroom has established itself as the most stylish and sophisticated room in the contemporary home, allowing unique, decorative elements to enter our room of relaxation.**

**Incorporating fashionable and functional accessories is often the most enjoyable and cost-effective way to refresh your bathroom; a quick and easy solution to keeping your bathroom on trend and clutter free.**

When dressing your room with bathroom accessories, it is the small details that will help to complete your desired bathroom design. Contrasting colours can unite the appearance of the whole room, with chrome fittings over darkened surfaces offering a modern appeal and gold metallics delivering a more industrial look.

If you are looking to create space around your basin, a frosted glass tumbler will offer a convenient home for your toothbrush and toothpaste. In addition, a coordinating frosted glass soap dish will certainly provide a smart and stylish alternative to leaving your bar of soap sitting on the corner of your basin.

**IND-SPA185B-BLK**  
Individual by VADO

**SHA-186-C/P**

### The Colour Palette of the Room

Rather than leaving a branded bottle of hand wash in the centre of your basin that conflicts with the colour palette of the room, a chrome soap dispenser will leave your basin clutter free whilst presenting a contemporary finish.

Carefully selecting the colour of your towels will also make a considerable difference to the tone of your bathroom. If your bath and hand towels look tired or clash with the bathroom's colour scheme, you may jeopardise the balance of the room.

How you store your towels can also have a surprisingly effective impact on your bathroom. To avoid leaving your fluffy towels hanging over the bath or on the floor, extended towel rails can prove to be a smart and stylish choice for the master bathroom.

# OMIKA

A beautiful collection of accessories designed by Jo Love.  
Omika harnesses the well-being properties of water to deliver  
a sensory spa experience that redefines bathroom living.

# GUARANTEE

All VADO products come with a 2 year guarantee as standard. Within this guarantee period VADO will provide replacement parts and any labour [SEE NOTE 1] needed to complete the product repair.

This standard guarantee may be extended by registering your product to give up to a 15 year guarantee period. Once registered:

VADO chromed brassware and stainless steel products have a 15 year guarantee (2 years parts and labour plus 13 years parts only).

Brassware products from the Individual by VADO collection have a 15 year guarantee (2 years parts and labour plus 13 years parts only).

Booth and Co. chrome and nickel brassware products have a 15 year guarantee (2 years parts and labour plus 13 years parts only).

VADO Sensori SmartTouch and SmartDial products have a 5 year guarantee (parts and labour).

VADO Identity and i-tech products have a 5 year guarantee (2 year parts and labour plus 3 years parts only).

All other VADO products have a 3 year guarantee (2 years parts and labour plus 1 year parts only) [SEE NOTE 2].

## GUARANTEE CONDITIONS

Our products are guaranteed against manufacturing defects from the date of purchase until the expiry of the relevant guarantee period shown above.

The guarantee is only valid if:

1. The product has been installed, used and maintained (maintenance guidelines can be viewed [here](#)) in accordance with VADO's instructions and subjected to normal use only.
2. The defect is not due to use of an unsuitable or inadequate water or power supply.
3. The defect is not due to accident, misuse, neglect or incorrect/inappropriate repair (other than by VADO or VADO authorised agents) or damage caused by foreign objects or substances.
4. The extended guarantee is only available if you have completed the Guarantee Registration Process. This can be done via the VADO website or via phone to our aftersales team. Registration must be completed within 6 months from date of purchase.

Under the extended guarantee period VADO will, at its option, offer to supply any replacement product (or component part) assessed to be defective [SEE NOTE 3].

The guarantee (whether standard or extended) is non-transferable to any subsequent owner.

All claims under the guarantee should be notified in the first instance to our Aftersales department, contact details below, this must be done no later than the last day of the relevant guarantee period. All claims must be accompanied by proof of purchase (sales receipt or delivery note) from an official VADO dealer.

The guarantee does not extend to any consequential loss or damage.

After repair or replacement, the relevant guarantee period will be calculated from the original date of purchase.

VADO operates a policy of continuous product development and therefore reserves the right to change the product, packaging and documentation specifications without notice.

## NOTES:

[1] Labour via our engineer network is only available in the UK. Attendance by a VADO engineer or sub-contract engineer will be under our standard terms and conditions.

[2] VADO spare parts and shower hoses are under a parts only guarantee.

[3] VADO reserves the right to charge in advance for a product (or replacement part) pending collection and investigation (at VADO expense) to confirm a defect is due to a manufacturing issue. If a defect is found the charge will be refunded or cancelled. This guarantee is in addition to and does not affect your statutory rights as a consumer.
