About us...

Established in 1989, Abacus is one of the UK's leading manufacturers and distributors of bathroom and wetroom products.

OUR PRODUCTS

Developed alongside some of the world's most prestigious bathroom brands, our comprehensive product range offers stunning contemporary designs, twinned with market-leading guarantees, which will suit all bathroom needs.

OUR PHILOSOPHY

Our approach to completing a bathroom through both product and design innovations makes us one of the only manufacturers and specialist distributors to supply every product required in a bathroom from conception to completion.

www.abacus-bathrooms.co.uk

The most comprehensive wetroom and waterproofing system available in the UK.

Trust ELEMENTS

Elements is the ideal product to waterproof and insulate in one operation prior to tiling and offers the most comprehensive waterproofing system available, from a simple bathroom floor to a complete steam room.

Elements not only makes your bathroom last longer, thus protecting your investment, it also reduces mould, making it a much healthier option for any tiling project.

All backed by our 15 year guarantee.*

Design ELEMENTS

Wetroom shower bases with innovative drain options.

Multi-height wetroom options from floor level to raised tile areas.

Wall and floor building systems for fast and efficient building.

Curved elements and pipe boxings to achieve the perfect look with precision and accuracy.

Create ELEMENTS

Elements allows you to be creative, making your ideas come to life. From a simple tiled shower seat to a complete steam room.

Innovative pre-fabricated systems.

Elements offers a complete bespoke tailor made service.

The clever bit is what you don't see...

Elements isn't just about wetrooms, it is a comprehensive waterproofing and insulation system for any bathroom, wetroom or steam room, delivering ultimate build quality 'behind the tiles' for total peace of mind.

Kind to the environment

High compressive strength

Lightweight & easy to handle

Waterproof properties

Insulating properties reducing condensation and energy costs

Easy to cut and shape

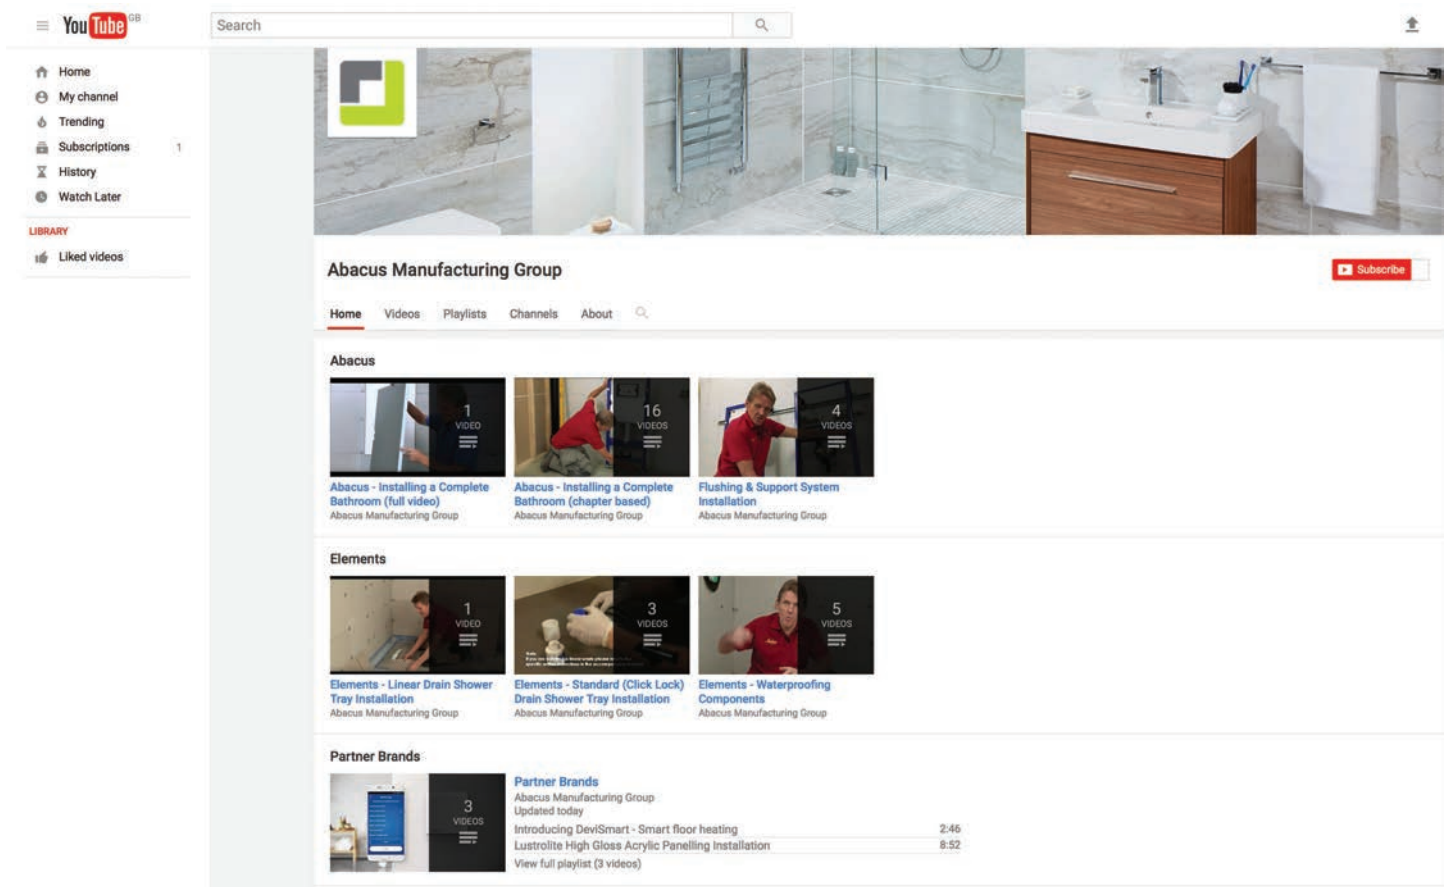

Economical construction product

...as well as the bit you do...

Go to our YouTube channel for invaluable help and expertise, presented by top 'skill builder', Roger Bisby

Abacus have teamed up with Roger Bisby to produce a series of best-practice videos enabling our customers to achieve the highest level of build quality in their bathroom installations when using the innovative Abacus product range.

Roger Bisby entered the building industry as an apprentice plumber. He went on to train as a college lecturer and has also run his own building company for nearly 30 years. He specialises in trouble shooting and has a dogged determination to get to the bottom of difficult problems. He put these talents to good use as the regular expert on London Broadcasting Company's (LBC) Fix It Phone In which remained one of their most popular shows throughout its 15 year run.

His television work includes appearances as the resident expert on The Terrace (BBC), Watchdog Home Improvement Series (BBC,) Rogue Traders (BBC) and House of Horrors (ITV). He currently works for trade publications including Professional Builder, Professional Electrician, Professional Heating and Plumbing Installer, and Professional Housebuilder and Property Developer.

Examples of our Elements installation videos include...

- Installing a level access wetroom with a 300mm linear drain

(video length: 13 mins)

- Overboard a floor with 10mm board

(video length: 2.5 mins)

- Top tips for designing a wetroom

(video length: 2 mins)

- Installing a tileable recessed storage box

(video length: 1.5 mins)

...and with many more useful videos online.

Subscribe to our YouTube channel to get the latest updates and new videos as soon as they're uploaded.

Search for Abacus Manufacturing Group – and get the best tips, hints and advice for all aspects of your bathroom or wetroom installation.

A modern walk-in shower with glass doors and marble-look tiles. The shower features a large overhead rain showerhead, a handheld showerhead on a vertical bar, and a built-in shelf. The walls are covered in large, light-colored tiles with a natural stone pattern. The floor is made of small, square tiles with a grid pattern. A wooden-handled brush hangs on the left wall. The shower is set against a white wall.

The most comprehensive wetroom system on the market, for complete peace of mind and total reassurance of a completely 100% waterproof finished room, all backed with a 15 year guarantee*.

ELEMENTS
Wetrooms Solved

Raised Showering Concept Kits

RAISED SHOWERING CONCEPT KITS

The Elements Raised Concept Kit allows you to:

- easily achieve that stylish, designer wetroom look where normal floor drainage systems would be difficult to install.
- create a tiled wet area raised above the standard bathroom floor.

The system is lightweight, easy to install and totally flexible in dimensions and drainage types to suit virtually any application. The kits can even be raised to 140mm so that the drain trap does not need to be installed into the floor.

Supplied with high-capacity drain traps of up to 60 litres per minute.

Ideal for bath replacements.

Perfect for apartments or solid floors.

Easy to cut length to exact required size.

HOW TO PURCHASE - 3 EASY STEPS

1. Choose your height

2. Choose your width

3. Choose your drain type

Complete your wetroom

FOR WETROOM SCREENS SEE PAGES 128–155

Don't forget to consider overboarding your floor. See page 38 for our kit options.

CONCEPT KIT 1 - SQUARE DRAIN

(EMKS-15-1809)

Concept 1 Raised Tray Kit includes complete installation kit

SIZE (mm): 1850 x 900 x 130/140

The Concept 1 is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors.

£838.00

Note:

- 1) Trays can be reduced in length & width by cutting with a hand saw, however we do not recommend cutting more than 80mm off each side of the tray when reducing the width.
- 2) Tray lengths can be extended by purchasing an additional extension kit.

CONCEPT KIT 4 - SQUARE DRAIN

(EMKS-15-1807)

Concept 4 Raised Tray Kit includes complete installation kit

SIZE (mm): 1850 x 750 x 130/140

The Concept 4 is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors.

£825.00

Note:

- 1) Trays can be reduced in length & width by cutting with a hand saw, however we do not recommend cutting more than 80mm off each side of the tray when reducing the width.
- 2) Tray lengths can be extended by purchasing an additional extension kit.

(EMAP-40-0505)

140mm Height Extension Kit

Elements extension piece, waterproof tape, FIX-KST, Pro-SEAL extends by 750mm for Kit 1, extends by 900mm for Kit 4

£216.00

CONCEPT KIT 3 - SQUARE DRAIN

(EMKS-05-1809)

Concept 3 Raised Tray Kit includes complete installation kit

SIZE (mm): 1850 x 900 x 40/50

The Concept 3 kit is designed principally for the replacement of a bath or the creation of a long, low-height shower area. This creates a 40/50mm raised wet area within the bath or shower room.

£724.00

Note:

Trays can be reduced in length & width by cutting with a hand saw, however we do not recommend cutting more than 80mm off each side of the tray when reducing the width.

Level Access Shower Tray Kits

LEVEL ACCESS SHOWER TRAY KITS

Specifically designed for the UK market where bathroom floors are overboarded with either plywood or Elements board. These trays are 30mm in height and give a completely flush tiled floor after installation.

If your desired shape or size of shower tray is not included in the standard shower tray range don't worry! Abacus Elements have the ability to make custom shower trays to your design. Virtually any shapes are possible - simply send your requirements to your Abacus Elements dealer.

Supplied with high-capacity drain traps of up to 42 litres per minute.

Ideal for either timber or screeded floors.

A comprehensive range of tray sizes and drain options.

Easy installation.

HOW TO PURCHASE - 2 EASY STEPS

1. Choose your shower tray size

2. Choose your drain type

Infinity Single Fall Level Access Wetroom System

INFINITY SINGLE FALL WETROOM TRAYS

Infinity gives the ultimate wetroom look for those who want to tile with large format tiles.

The Infinity range offers four standard shower tray sizes and Abacus Elements can also manufacture bespoke sizes to your specific needs.

The drains are flush with the wall and offer a stylish, minimalist look. There are two drain lengths, 700mm and 1000mm, and both come with a high capacity drain trap of up to 42 litres per minute.

Infinity trays are all supplied complete with waterproofing tapes attached and a comprehensive installation kit for total piece of mind and installation ease, all backed with a 15 year guarantee*.

All trays are supplied with Lustrolite tapered tile trim for use at the exposed edges of the tray.

15 year guarantee*

*Guarantee against manufacturing defects, see page 156 for details.

Standard 40mm & Level Access 30mm Individual Shower Trays

Standard 40mm Height Shower Trays

WITH SQUARE DRAIN

40mm STANDARD SHOWER TRAYS SQUARE DRAIN

Total flexibility in shower tray design - with three installation options as shown below.

All are available with substrate elements should you not be able to position your drain within the floor. Please remember that all standard shower trays are 40mm in height and require a separate drain and installation kit.

Custom Made Options

If your desired shape or size of shower tray is not included in the standard shower tray range, Abacus Elements has the ability to make custom shower trays to your design. Virtually any shapes are possible - simply send your requirements to your Abacus Elements dealer.

Installation Options

1. Above floor installation

Trap raised above floor
120mm height

2. Low level installation

Trap recessed in the floor
40mm height

3. Within screed installation

Trap and tray recessed in the floor
Level access

HOW TO PURCHASE - 6 EASY STEPS

1. Choose your shower tray size

2. Choose your drain position

- Horizontal Drain - UK 2" Solvent Pipe - inc. S/Steel Grate
- Removable Hair Trap
- High Flow Trap - up to 60L per minute
- Stainless Steel Grate 120 x 120mm

£47.40

DESIGNER SHOWER WASTE - STAINLESS STEEL

(EMTW-25-0005)

- Designer solid Stainless Steel Shower Drain Cover Upgrade Kit
- Allen Key fixings (also suitable for commercial premises)
- Solid Stainless Steel Grate 120 x 120mm

£66.00

TILEABLE SHOWER WASTE

(EMTW-15-0010)

- Horizontal Drain - UK 2" Solvent Pipe - inc. Tileable Grate
- Removable Hair Trap
- High Flow Trap - up to 60L per minute
- IMPORTANT NOTE: This tileable drain is only suitable where the tile thickness + the adhesive thickness is a minimum of 13mm

£47.40

SHOWER TRAY INSTALLATION KIT

(EMAP-02-2505)

- For the installation and waterproofing of all shower trays
- Fix-KST Fixing Adhesive, Pro-SEAL (pre-mixed), Waterproofing Tape, Wood Floor Primer, Waterproofing Internal Corners, Protective Gloves

£99.60

Note: A standard Shower Tray Installation Kit contains 5kg Fix-KST fixing adhesive. This is suitable for approximately 2 square metres of screeded bedding. If you are bedding large shower trays with substrate elements eg. 1600 x 900mm please purchase additional Fix-KST as below:

FIX-KST FIXING ADHESIVE

- For adhering tray, sub-element or boards to any floor
- For adhering wall boards to a brick or block wall

(EMAS-05-0005) 5KG BAG

£17.50

(EMAS-05-0010) 20KG BAG

£59.00

WOOD FLOOR PRIMER

(TLTA-15-2005)

- To be used if you are fixing onto timber floors
- 1L Wood Floor Primer
- Covers approx. 10 sq. m

£22.50

Shower Wastes & Installation Kits - LINEAR DRAIN

LINEAR WASTE TRAP KIT (REQUIRED FOR ALL LINEAR 300 & 600 TRAYS)

(EMTW-05-0505)

- Linear Waste Trap Kit
- Supplied with 2" - 1½" Reducer
- Vertical Elbow Adapter

£47.40

LINEAR 300 DRAIN COVER PLATE OPTIONS

DESCRIPTION	SIZE (mm)	FINISH	PRODUCT CODE	PRICE

- To be used if you are fixing onto timber floors
- 1L Wood Floor Primer
- Covers approx. 10 sq. m

£22.50

Elements Bespoke Shower Trays

If the shower tray you require is not featured in our standard ranges, here at Abacus Elements we pride ourselves in the fast production of bespoke trays. Simply send a diagram or drawing of your requirements and we will provide you with a price and deliver your bespoke size shower tray in approximately 10 working days!

Why Bespoke Shower Trays?

ANY SIZE, ANY DRAIN POSITION* – 10 DAY DELIVERY

(*see following pages for details)

Although standard Elements shower trays can be cut up to a recommended distance of 80mm off either length or width, by doing this the depth of the perimeter of the tray will be altered, thereby affecting the fall (and drainage flow rate) of a standard shower tray.

That's why we recommend ordering a bespoke tray that is manufactured to your customised project dimensions, retaining the recommended fall and drainage flow for improved shower tray performance.

Fast, precise, automated manufacture and 10 day delivery.

How to order your Elements Bespoke Shower Tray

Complete the online order form on our website at

www.abacus-bathrooms.co.uk/bespoketray

FOR SQUARE OR RECTANGULAR-SHAPED BESPOKE TRAYS:

Simply give us the dimensions of your desired bespoke tray, drain type and drain position (see next page for drain location advice) and we'll send you your personalised bespoke tray technical drawing for approval.

Once signed-off, we produce your bespoke tray to your approved dimensions and deliver within 10 working days.

A screenshot of the ABACUS website's 'Bespoke Shower Tray Order Form'. The page has a white background with a grey header. The header includes the ABACUS logo, a search bar, and the ELEMENTS logo. Below the header is a navigation menu with links to various product categories. The main content area is titled 'Bespoke Shower Tray Order Form' and contains a form with several sections: 'Name', 'Address', 'Contact No.', 'Email', 'SHOWER TRAY DETAILS', '1. Approximately square?', '2. Rectangular', '3. A custom shape?', 'Length (mm)', 'Width (mm)', 'DRAIN TYPE', '1. Square', '2. Linear 800', '3. Linear 900', and 'DRAIN POSITION'. The form is designed to collect specific information about the customer's requirements for a bespoke shower tray.

FOR CUSTOM-SHAPED BESPOKE TRAYS:

You simply can't beat the personal touch, so contact our sales office with a drawing and the dimensions of your custom-shaped bespoke tray. We'll input your design into our CAD system and produce your personalised bespoke tray technical drawing for approval.

Once signed-off, we produce your bespoke tray to your approved dimensions and deliver within 10 working days.

FREE DELIVERY OF YOUR BESPOKE SHOWER TRAY...IN JUST 10 DAYS FROM PLACING YOUR ORDER!

from approved technical drawings

SQUARE OR LINEAR DRAIN OPTIONS

DRAIN TYPE AND LOCATION:

The choice is yours! Select the drain type you prefer, whether square, Linear 300 or Linear 600, and then decide on the location of the drain within the tray area. Check our handy guide below on drain placement:

Bespoke waste positions for Square Drains

Bespoke waste positions for Linear Drains

Bespoke Shower Trays - 30mm Height

LEVEL ACCESS - SQUARE DRAIN

HOW TO ORDER:

1. Measure the length and width of the space you want the shower tray to fit.
Example: 960mm long x 1150mm wide will be EMST-93-1210 at £489 – see table below
2. Choose the drain position, (see examples on p.73). Remember there is a 250mm 'safe' area from the tray edges.

		WIDTH OF SHOWER TRAY (mm)				
		up to 1000	1001 to 1200	1201 to 1400	1401 to 1600	1601 to 1800
LENGTH OF SHOWER TRAY (mm)	up to 1000	£419 EMST-93-1010	£489 EMST-93-1210	£519 EMST-93-1410	£570 EMST-93-1610	£649 EMST-93-1810
	1001 to 1200	£489 EMST-93-1012	£534 EMST-93-1212	£570 EMST-93-1412	£649 EMST-93-1612	£699 EMST-93-1812
	1201 to 1400	£519 EMST-93-1014	£570 EMST-93-1214	£649 EMST-93-1414	£699 EMST-93-1614	£719 EMST-93-1814
	1401 to 1600	£570 EMST-93-1016	£649 EMST-93-1216	£699 EMST-93-1416	£719 EMST-93-1616	
	1601 to 1800	£649 EMST-93-1018	£699 EMST-93-1218	£719 EMST-93-1418		

- ANY DRAIN POSITION**
 minimum 250mm from tray edge
- CENTRALLY POSITIONED DRAIN**
 minimum 250mm from tray edge

ADDITIONAL ITEMS REQUIRED:

INSTALLATION KIT
 (including square drain)
 (EMAP-05-2505)

£180.00

OPTIONAL ITEMS:

DESIGNER SHOWER WASTE
 Stainless Steel
 (EMTW-25-0005)

£66.00

PLEASE NOTE:

For bespoke shower trays larger than 1400mm x 1400mm, or equivalent area, the following additional components from the installation kit are required to be purchased separately:

FIX-KST BOARD FIXING ADHESIVE 20kg

(EMAS-05-0010) **£59.00**

WATERPROOF TAPE - 10m ROLL

(EMTM-05-0010) **£49.20**

PRO-SEAL TAPE SEALING COMPOUND 1.2L

(EMAS-10-0015) **£43.80**

Bespoke Shower Trays - 40mm Height

SQUARE DRAIN

HOW TO ORDER:

1. Measure the length and width of the space you want the shower tray to fit.

Example: 960mm long x 1150mm wide will be EMST-94-1210 at £420 – see table below 

2. Choose the drain position, (see examples on p.73). Remember there is a 250mm 'safe' area from the tray edges.

ANY DRAIN POSITION
minimum 200mm from tray edge

ADDITIONAL ITEMS REQUIRED:

INSTALLATION KIT (EMAP-05-2515)

£249.00

OPTIONAL ITEMS:

TILEABLE COVER PLATE (EMTW-25-1010)

£139.00

PLEASE NOTE:

For bespoke shower trays larger than 1400mm x 1400mm, or equivalent area, the following additional components from the installation kit are required to be purchased separately:

FIX-KST BOARD FIXING ADHESIVE 20kg

(EMAS-05-0010) **£59.00**

WATERPROOF TAPE - 10m ROLL

(EMTM-05-0010) **£49.20**

PRO-SEAL TAPE SEALING COMPOUND 1.2L

(EMAS-10-0015) **£43.80**

Bespoke Sub-Elements for 40mm Height Shower Trays

SQUARE DRAIN

Why do I need a sub-element?

If you are installing a raised wetroom shower tray where the waste trap needs to be above the floor level (for example a concrete floor that cannot be cut out), then the shower tray can be mounted onto an Elements foam sub-element which will raise the trap above the floor as shown in the diagram opposite. The waste pipe route can easily be cut into the sub-element using a hand saw.

Elements Building Boards

6mm – 100mm

Kind to the environment

High compressive strength

Lightweight & easy to handle

Waterproof properties

Insulating properties

Easy to cut

Economical construction product

Features & benefits

- More stable in moist environments than timber
- Can be used for cladding walls and floors
- Can be used both internally and externally
- Can be either mechanically fixed, glued with Abacus Elements adhesive or both
- Cut easily with a hand saw to correct size, shape and around obstacles
- Good insulating product to help reduce condensation
- Offers higher adhesion to tiles than either timber or plasterboard
- Can be fixed onto almost any surface
- Has a high compressive strength of over 25 Tonnes per sq.m making it incredibly strong when tiled
- Can either be tiled or plastered
- A perfect product for the fast creation of tiled partition walls anywhere within the home
- Recommended for use with electric under tile heating systems

The most comprehensive wetroom and waterproofing system available in the UK.

All backed with a 15 year guarantee.

Waterproof and insulate your whole room

Kits for timber or block walls

Use with any shower cubicle or bathroom

Completely waterproof with a 15 year guarantee

Wall Panelling Kits

The professional's choice prior to tiling

 - P shaped baths

Building with Elements Board

Comprehensive waterproofing and insulation system for any bathroom, wetroom or steamroom, delivering ultimate build quality ‘behind the tiles’ for total peace of mind. Elements Board not only makes your bathroom last longer, thus protecting your investment, it also reduces mould – making it a much healthier option for any tiling project.

VERSATILE APPLICATIONS IN MULTIPLE THICKNESSES AND SIZES:

- 6mm board – to overboard a wall
- 10mm board – to overboard a floor instead of plywood
- 12mm board – an alternative to plasterboard
- 30mm board – to line a Steam Room (high levels of humidity)
- 80/100mm board – to form a stud wall

	Elements Boards	Plasterboard	Marine Ply
Insulating (reduces condensation and energy required to heat the room)	✓	✗	✗
Tile adhesion of up to 62kg per m ²	✓	✗	✗
Anti-Mould properties (better for health)	✓	✗	✗
Lightweight , easy to cut & handle	✓	✗	✗
Waterproof (impervious to moisture & will not deform in damp atmospheric conditions)	✓	✗	✗

- A

12mm WALL BOARDS
Perfect substrate for tiling; unlike plasterboard will insulate and waterproof - **page 89**
- B

PRO-SEAL JOINT SEALING TAPE AND ADHESIVE
For 100% waterproof joints and fixings - **page 105**
- C

SHOWER TRAY
A huge variety of wetroom shower trays and drains with pre-formed falls - **page 16-56**
- D

WALL PARTITION
Using Elements as a waterproof partition wall - **page 91**

E RECESSED STORAGE UNIT

Fully waterproof and ready for installation - **page 96**

F TILEABLE BATH PANEL

Much faster to install than timber panelling, waterproof and stable in a moisture environment - **page 95**

G 10mm FLOOR BOARDS

Waterproof and insulate your bathroom floor using Elements Floor Backer Board; no more need for plywood - **page 40**

H JOINT REINFORCING TAPE

- for non waterproof joints

Insulate your bathroom and make it last much longer than traditional building methods - **page 107**

I BOARD FIXING ADHESIVE AND FIXINGS

Adhere and fix Elements boards to any substrate using Elements Fixings and KST Adhesive - **page 105**

Enjoy your new fully waterproof bathroom for many years to come.

Pipe Boxing & Decor Trim Products

FEATURES & BENEFITS

- The fast and efficient way to box in pipes prior to tiling or rendering
- Can be either tiled or plastered
- Many shapes and sizes of pipe boxing available
- Greatly reduces installation time
- Gives a much better tiling surface than timber
- Reduces the need to plasterboard timber when applying render
- Waterproof and stable in a moist environment
- Can be used to create designs within a bathroom rather than just covering unsightly features

The easy and cost effective way to create tiled columns and rounded corners

Bespoke & Wellness Products

ELEMENTS BESPOKE

The only limit is
your imagination.

WETROOM GLASS PANELS

The ultimate in wetroom luxury.

X Series offers a range of twelve sizes of 10mm toughened glass panels all with Easi-Clean coating.

Together with a comprehensive range of support bars and channels, X Series lets you be totally creative in your wetroom design whilst offering outstanding value.

Easi-Clean:

- Keeps glass looking like new
- Reduces water spots (limescale and mineral deposits)
- Is always easier to clean
- Stays cleaner for longer
- Significantly reduces the growth of bacteria

Wetroom Glass

X SERIES

How to order X Series Wetroom Glass in 5 easy steps

THE POSSIBILITIES ARE TRULY LIMITLESS WITH THE NEW X SERIES RANGE OF GLASS, CHANNELS, CLAMPS AND SUPPORT BARS.

1. Create your design

By combining one or more pieces of X Series glass together with our range of vertical channels, you have the ability to create anything from a simple piece of glass to complex screens with return panels.

2. Choose your glass size

The X Series of 10mm toughened glass covers a variety of sizes from 290mm right up to 1190mm in width and 2000mm height so you can be sure to find a size to suit.

X Series glass is supplied with Easi-Clean technology at no extra charge which helps reduce limescale deposit build-up and keeps your glass cleaner for longer.

3. Choose your preferred glass channel

Your X Series glass should be supported within a floor and wall channel. The X Series offers three options to suit your design requirements:

- Our X Series Surface Channel has a clever two layered base so that the glass is raised higher than the screw head. This channel is best suited for applications where the tile has already been laid.
- Alternatively our X Series Recessed Floor & Wall Channel can be installed when tiling to give a minimalistic look.
- Our innovative new V Fix channel allows you to use channelling without the need for silicone which is a great time-saving option.

4. Choose your wall/ceiling support

Depending on the size of the glass you are installing we would recommend that you give the glass panel additional support with an X Series Support Bar. These are available in both horizontal and vertical options and can be cut down to suit your application. See opposite for a guide to choosing glass supports.

5. Finish the look

The X Series includes a range of complementary accessories to give that final touch to your design. Why not add a Double Robe Hook or Towel Hanging Bar with Glass Shelf?

A Guide to Choosing Glass Support

1.

2. General option for glass over 800mm

3.

General option for glass over 800mm

4.

General option for glass over 800mm

Note: These general options are suggestions only, there is no right or wrong way to support bespoke glass panels. Abacus Direct cannot be held responsible for the suggestions shown above as the designers and installers need to be comfortable with the correct level of support required for each project.

X Series Glass Panels

290mm - 1190mm WIDTH
10mm TOUGHENED SAFETY GLASS - 2.0m HIGH

The X Series begins with a range of 12 glass panels which can be used collectively or independently to create any shower combination you wish for. Specifically designed for use in wet rooms the X Series brings a timeless elegance to any shower setting.

X Series Bespoke Option

If you require a glass option outside our standard sizes please ring our sales office who will be pleased to quote you on any bespoke size. Options can include glass in different shapes and thicknesses and etched designs to your specification.

This diagram illustrates a straight jointing clamp assembly. It features two large, light blue rectangular blocks labeled "Glass" positioned side-by-side. A vertical grey rod, labeled "Silicone Joint", runs through the center of the glass blocks. At the top of the rod is a grey rectangular component labeled "Straight Jointing Clamp", which has two small white circles representing screws. The entire assembly is supported by a horizontal grey bar at the bottom, labeled "Floor Channel".

Bespoke Doors & Panels

CREATE YOUR OWN GLASS
DESIGNS AND TURN YOUR
DREAMS INTO A REALITY

Bespoke Doors & Panels

CREATE YOUR OWN DESIGN AND TURN YOUR DREAMS INTO A REALITY

As wet rooms and walk-in shower rooms become ever more popular, so does the production of bespoke glass screens. Curved or flat, clear or tinted, send us your ideas and get a quote for your unique design which will be produced for you to the highest quality.

Bespoke Doors & Panels

All glass is made out of safety toughened glass. Standard components can be ordered in a number of different finishes.

With our range of hinges, handles and accessories and our ability to manufacture glass in almost any size and thickness you can create your own bespoke piece to meet your requirements.

Please contact your Abacus Bathrooms dealer or email us at enquiries@abacus-bathrooms.co.uk

General

Prices

The prices displayed throughout this catalogue supersede all other previous publicised price lists. All prices include VAT and are subject to change without prior notice.

Returns

Goods may be returned for credit only following written approval by Abacus.

Special-order or bespoke items are non-returnable.

Order cancellation will be subject to a 25% re-stocking charge.

Abacus reserve the right to refuse credit on goods returned damaged or in a condition unfit for resale.

Also there may be an applicable charge for the re-boxing of a returned product.

Delivery

All orders below a nett invoice value of £100 (ex. VAT) will incur a £6.95 delivery charge.

The Company must be notified within 14 days of any claim for a product not delivered.

Abacus will do our best to deliver all orders on time and complete, however we cannot accept any liability for delays or failure to deliver products.

Care and maintenance

Abacus products are manufactured to exacting standards and following the care and cleaning guidelines below will ensure that your bathroom will give you years of effective use.

Brass Products

Brass products should be cleaned with a diluted mild detergent such as washing up liquid applied with a soft sponge or cloth, and then buffed dry with a microfibre cloth.

Avoid using acids, rough sponges or steel wool and do not leave detergent on the products for long periods of time.

Glass

Our glass wetroom screens are protected by an easy-clean nano-technology coating to make cleaning easier. We recommend that glass screens are cleaned with a diluted detergent and dried with a microfibre cloth. We recommend regular wiping of glass screens in order to remove excess water, which in some areas can be quite aggressive.

GENERAL

NEVER use products containing bleach on bathroom products or any cleaners or cloths of an abrasive nature.

Product Guarantee*

Unless stated below all Elements products carry a 15 year guarantee.

- The guarantee covers products which have been installed to the manufacturer's instructions, and if used in a bathroom, the room is deemed to have suitable ventilation in accordance with UK building regulations.
- The guarantee is available to original purchasers who have proof of purchase and is non-transferable.
- Abacus operate a policy of continued product development. In the event that a faulty product has been superseded, Abacus will replace the product with the nearest equivalent item. Abacus reserve the right to change designs and specifications without prior notice.
- In the event of a product fault after installation, Abacus must be given the opportunity to inspect the item in its installed state.
- The guarantee does not cover consequential loss. (Your statutory rights are not affected).
- The guarantee does not cover products that have been modified in any way.
- The guarantee does not cover any products that have previously been on display in a showroom.
- The guarantee covers products in normal use. Faults or damage caused by neglect, misuse, wilful or accidental damage, inappropriate cleaning and incorrect installation are not covered under the guarantee.
- The guarantee covers UK installations only.

*Exceptions to the Abacus 15 Year Guarantee

* Glass seals are covered with a 1 year guarantee

Terms and conditions

1. INTERPRETATION

1.1 Definitions

In these Conditions, the following definitions apply:
Abacus: Abacus Direct Limited a company registered in England and Wales with company number 04331572 whose registered office is at Abacus House Jubilee Court, Copgrove, Harrogate, North Yorkshire, HG3 3TB.

Business Day: a day (other than a Saturday, Sunday or public holiday) when banks in London are open for business.

Conditions: the terms and conditions set out in this document as amended from time to time in accordance with condition 13.9 and all other documents referred to therein including, but not limited to, the Returns Policy and the Delivery Guide.
Contract: the contract between Abacus and the Customer for the sale and purchase of the Goods in accordance with these Conditions.

Customer: the person or firm who purchases the Goods from Abacus.

Delivery Guide: Abacus' guide to delivery costs and services which is available online at www.abacus-bathrooms.co.uk.

End-User: the person or firm to which the Customer re-sells the Goods.

Force Majeure Event: an event beyond the reasonable control of the affected party including but not limited to strikes, lock-outs or other industrial disputes (whether involving the workforce of the party or any other party), failure of a utility service or transport network, act of God, war, riot, civil commotion, malicious damage, compliance with any law or governmental order, fire, regulation or direction, accident, breakdown of plant or machinery, telecommunications failure (including problems with internet transmission) fire, flood, storm or default of suppliers or subcontractors.

Goods: the goods (or any part of them) set out in the Order.

OEM Branding: the OEM Customer's brand.

OEM Customer: a Customer who requests Abacus to manufacture the Goods to include OEM Branding.

Order: the Customer's order for the Goods that can be placed either by email, telephone, fax or such other electronic means as Abacus and the Customer may agree from time to time.

Product Portfolio: Abacus' catalogue listing all the Goods supplied by Abacus and setting out the description of the Goods, the prices and the Product Warranty as may be amended or updated by Abacus from time to time.

Product Warranty: the warranty provided by Abacus (or the manufacturer of the Goods) in respect of each of the Goods as set out in the Product Portfolio.

Returns Policy: Abacus' returns policy which is available online at www.abacus-bathrooms.co.uk.

Services: dealing with enquiries or complaints raised by End-Users, the processing of returns of Goods and/or showroom design and fitting services.

Specification: any specification for the Goods, including OEM Branding and any related plans and drawings that is agreed in writing by the Customer and Abacus.

VAT: value added tax.

Warranty Period: has the meaning set out in condition 5.1.

Website: Abacus' website at www.abacusedirecttd.com.

1.2 Construction

In these Conditions, the following rules apply:

1.2.1 A person includes a natural person, corporate or unincorporated body (whether or not having separate legal personality).

1.2.2 A reference to a party includes its personal representatives, successors or permitted assigns.

1.2.3 A reference to a statute or statutory provision is a reference to such statute or provision as amended or re-enacted. A reference to a statute or statutory provision includes any subordinate legislation made under that statute or statutory provision, as amended or re-enacted.

1.2.4 Any phrase introduced by the terms including, include, in particular or any similar expression shall be construed as illustrative and shall not limit the sense of the words preceding those terms.

1.2.5 A reference to writing or written includes faxes and e-mails.

2. BASIS OF CONTRACT

2.1 These Conditions apply to the Contract to the exclusion of any other terms that the Customer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing.

2.2 The Order constitutes an offer by the Customer to purchase the Goods in accordance with these Conditions. The Customer is responsible for ensuring that the terms of the Order and any applicable Specification submitted by the Customer are complete and accurate.

2.3 The Order shall only be deemed to be accepted when Abacus issues a written order acknowledgement, at which point the Contract shall come into existence.

2.4 The Contract constitutes the entire agreement between the parties. The Customer acknowledges that it has not relied on any statement, promise, representation, assurance or warranty made or given by or on behalf of Abacus which is not set out in the Contract.

2.5 Any samples, drawings, descriptive matter, or advertising produced by Abacus and any descriptions or illustrations contained in the Product Portfolio and/or the Website are produced for the sole purpose of giving an approximate idea of the Goods described in them. They shall not form part of the Contract or have any contractual force.

3. GOODS

3.1 The Goods are described in the Product Portfolio and the Website as modified by any applicable Specification.

3.2 To the extent that the Goods are to be manufactured in accordance with a Specification supplied by the Customer, the Customer shall indemnify Abacus against all liabilities, costs, expenses, damages and losses (including any direct, indirect or consequential losses, loss of profit, loss of reputation and all interest, penalties and legal and other professional costs and expenses) suffered or incurred by Abacus in connection with any claim made against Abacus for actual or alleged infringement of a third party's intellectual property rights arising out of or in connection with Abacus' use of the Specification. This condition 3.2 shall survive termination of the Contract.

3.3 Abacus reserves the right to amend the Specification if required by any applicable statutory or regulatory requirements.

4. DELIVERY

4.1 All deliveries shall be carried out in accordance with this condition 4 and the Delivery Guide.

4.2 Abacus shall deliver the Goods to the location set out in the Order or such other location as the parties may agree (Delivery Location).

4.3 Delivery of the Goods shall be completed on the Goods' arrival at the Delivery Location.

4.4 On delivery, the Customer shall check the Goods. If the Goods were damaged during transport or delivery, or if the quantity of Goods delivered is different to the quantity of Goods ordered, then the Customer must report any issues to Abacus' sales office as soon as possible and in any event no later than 2 Business Days after delivery.

4.5 Any dates quoted for delivery are approximate only, and the time of delivery is not of the essence. Abacus shall not be liable for any delay in delivery of the Goods that is caused by a Force Majeure Event or the Customer's failure to provide Abacus with adequate delivery instructions or any other instructions that are relevant to the supply of the Goods.

4.6 If Abacus fails to deliver the Goods, its liability shall be limited to the costs and expenses incurred by the Customer in obtaining replacement goods of similar description and quality in the cheapest market available, less the price of the Goods. Abacus shall have no liability for any failure to deliver the Goods to the extent that such failure is caused by a Force Majeure Event or the Customer's failure to provide Abacus with adequate delivery instructions or any other instructions that are relevant to the supply of the Goods.

4.7 If the Customer fails to accept delivery of the Goods within three Business Days of Abacus notifying the Customer that the Goods are ready, then, except where such failure or delay is caused by a Force Majeure Event or Abacus' failure to comply with its obligations under the Contract:

4.7.1 delivery of the Goods shall be deemed to have been completed at 9.00 am on the third Business Day after the day on which Abacus notified the Customer that the Goods were ready; and

4.7.2 Abacus shall store the Goods until delivery takes place, and charge the Customer for all related costs and expenses (including insurance).

4.8 If 10 Business Days after the day on which Abacus notified the Customer that the Goods were ready for delivery the Customer has not accepted delivery of them, Abacus may resell or otherwise

dispose of part or all of the Goods and, after deducting reasonable storage and selling costs, account to the Customer for any excess over the price of the Goods or charge the Customer for any shortfall below the price of the Goods.

4.9 Abacus may deliver the Goods by instalments, which shall be invoiced and paid for separately. Each instalment shall constitute a separate Contract. Any delay in delivery or defect in an instalment shall not entitle the Customer to cancel any other instalment.

5. QUALITY

5.1 Abacus warrants that on delivery, and for the period specified by each Product Warranty (warranty period), the Goods shall:

5.1.1 conform in all material respects with their description and any applicable Specification;

5.1.2 be of satisfactory quality; and

5.1.3 be fit for any purpose held out by Abacus.

5.2 Subject to condition 5.3, if:

5.2.1 the Customer gives notice in writing to Abacus during the warranty period within a reasonable time of discovery that some or all of the Goods do not comply with the warranty set out in condition 5.1;

5.2.2 Abacus is given a reasonable opportunity of examining such Goods; and

5.2.3 the Customer (if asked to do so by Abacus) returns such Goods to the Abacus' place of business at the Customer's cost, Abacus shall, at its option, repair or replace the defective Goods, or refund the price of the defective Goods in full.

5.3 Abacus shall not be liable for any failure of the Goods to comply with the warranty set out in condition 5.1 in any of the following events:

5.3.1 The Customer makes any further use of such Goods after giving notice in accordance with condition 5.2;

5.3.2 the defect arises because the Customer failed to follow Abacus' oral or written instructions as to the storage, commissioning, installation, use and maintenance of the Goods or (if there are none) good trade practice regarding the same;

5.3.3 the defect arises as a result of Abacus following any drawing, design or Specification supplied by the Customer;

5.3.4 the Customer alters or repairs such Goods without the written consent of Abacus;

5.3.5 the defect arises as a result of fair wear and tear, wilful damage, negligence, or abnormal storage or working conditions; or

5.3.6 the Goods differ from their description or the Specification as a result of changes made to ensure they comply with applicable statutory or regulatory requirements.

5.4 Except as provided in this condition 5, Abacus shall have no liability to the Customer in respect of the Goods' failure to comply with the warranty set out in condition 5.1.

5.5 These Conditions shall apply to any repaired or replacement Goods supplied by Abacus and should be read in conjunction with the Returns Policy.

6. TITLE AND RISK

6.1 The risk in the Goods shall pass to the Customer on completion of delivery.

6.2 Title to the Goods shall not pass to the Customer until the earlier of:

6.2.1 Abacus receives payment in full (in cash or cleared funds) for the Goods and any other goods that Abacus has supplied to the Customer in respect of which payment has become due, in which case title to the Goods shall pass at the time of payment of all such sums; and

6.2.2 The Customer resells the Goods, in which case title to the Goods shall pass to the Customer at the time specified in condition 6.4.

6.3 Until title to the Goods has passed to the Customer, the Customer shall:

6.3.1 store the Goods separately from all other goods held by the Customer so that they remain readily identifiable as Abacus' property;

6.3.2 not remove, deface or obscure any identifying mark or packaging on or relating to the Goods;

6.3.3 maintain the Goods in satisfactory condition and keep them insured against all risks for their full price from the date of delivery;

6.3.4 notify Abacus immediately if it becomes subject to any of the events listed in condition 10.1; and

6.3.5 give Abacus such information relating to the Goods as Abacus may require from time to time.

6.4 Subject to condition 6.5, the Customer may resell or use the Goods in the ordinary course of its business (but not otherwise) before Abacus receives payment for the Goods. However, if the Customer resells the Goods before that time:

6.4.1 it does so as principal and not as Abacus agent; and

6.4.2 title to the Goods shall pass from Abacus to the Customer immediately before the time at which resale by the Customer occurs.

6.5 If before title to the Goods passes to the Customer the Customer becomes subject to any of the events listed in condition 10.1, then, without limiting any other right or remedy Abacus may have:

6.5.1 the Customer's right to resell the Goods or use them in the ordinary course of its business ceases immediately; and

6.5.2 Abacus may at any time:

6.5.2.1 require the Customer to deliver up all Goods in its possession which have not been resold, or irrevocably incorporated into another product; and

6.5.2.2 if the Customer fails to do so promptly, enter any premises of the Customer or of any third party where the Goods are stored in order to recover them.

7. PRICE AND PAYMENT

7.1 The price of the Goods shall be the price set out in the Order; or, if no price is quoted, the price set out in the Product Portfolio as at the date of delivery.

7.2 Abacus may, by giving notice to the Customer at any time before delivery, increase the price of the Goods to reflect any increase in the cost of the Goods that is due to:

7.2.1 any factor beyond Abacus' control (including foreign exchange fluctuations, increases in taxes and duties, and increases in labour, materials and other manufacturing costs);

7.2.2 any request by the Customer to change the delivery date(s), quantities or types of Goods ordered, or the Specification; or

7.2.3 any delay caused by any instructions of the Customer or failure of the Customer to give Abacus adequate or accurate information or instructions.

7.3 The price of the Goods is exclusive of the costs and charges of packaging, transport of the Goods (which are set out in the Delivery Guide) and insurance, which shall be invoiced to the Customer.

7.4 The price of the Goods is exclusive of amounts in respect of VAT. The Customer shall, on receipt of a valid VAT invoice from Abacus, pay to Abacus such additional amounts in respect of VAT as are chargeable on the supply of the Goods.

7.5 Abacus may invoice the Customer for the Goods on or at any time after the completion of delivery.

7.6 Payment terms will be agreed in writing by Abacus and the Customer and confirmed in the written order acknowledgement. Abacus shall not be obliged to offer credit terms, and credit terms may be revoked at any time. Payment shall be made to a bank account nominated in writing by Abacus. Time of payment is of the essence.

7.7 If Abacus and the Customer agree any volume rebate or other discount, the Customer agrees that Abacus' calculations of such rebate or discount will be final and binding.

7.8 The Customer shall pay all amounts under the Contract in full without any set-off, counterclaim, deduction or withholding (except for any deduction or withholding required by law). Abacus may at any time, without limiting any other rights or remedies it may have, set off any amount owing to it by the Customer against any amount payable by Abacus to the Customer.

8. INTELLECTUAL PROPERTY - OEM CUSTOMERS

8.1 All OEM Customers hereby grant Abacus a non-exclusive licence to use the OEM Branding and any other Intellectual Property Rights necessary to manufacture and supply the Goods in accordance with any Specification.

8.2 Abacus acknowledges and agrees that all rights in the OEM Branding and other relevant Intellectual Property Rights belonging to the OEM Customer shall remain in the OEM Customer.

9. SERVICES

9.1 If requested by the Customer and agreed in writing by Abacus, Abacus may supply the Services.

9.2 Abacus shall use all reasonable endeavours to meet any performance dates agreed between the parties, but any such dates shall be estimates only and time shall not be of the essence for performance of the Services.

9.3 Abacus shall have the right to make any changes to the services which are necessary to comply with any applicable law or safety requirement, or which do not materially affect the nature or quality of the Services, and Abacus shall notify the Customer in any such event.

9.4 Abacus warrants to the Customer that the Services will be provided using reasonable care and skill.

10. TERMINATION AND SUSPENSION

10.1 Abacus may terminate the Contract without liability immediately on giving notice to the Customer, if the Customer:

10.1.1 commits a material breach of its obligations under this Contract and (if such breach is remediable) fails to remedy that breach within a period of 30 days after receipt of written notice requiring it to do so;

10.1.2 commits a series of persistent minor breaches which, when taken together, amount to a material breach;

10.1.3 (being a natural person) is deemed either unable to pay its debts or as having no reasonable prospect of so doing, in either case, within the meaning of section 268 of the Insolvency Act 1986 or (being a partnership) has any partner to whom any of the foregoing apply;

10.1.4 (being a natural person) is declared bankrupt or makes any arrangement with or for the benefit of his creditors or has a county court administration order made against him under the County Court Act 1984;

10.1.5 enters into compulsory or members voluntary liquidation or passes a resolution for voluntary winding up or its directors convene a meeting of shareholders for that purpose (save for the purposes of solvent amalgamation or reconstruction where the amalgamated or reconstructed company agrees to adhere to this agreement);

10.1.6 has an administrative receiver or receiver appointed over all or any part of its assets or undertaking;

10.1.7 suspends, or threatens to suspend, payment of its debts, is unable to pay its debts as they fall due, admits inability to pay its debts or (being a partnership) has any partner to whom any of the foregoing apply or who is declared bankrupt;

10.1.8 is the subject of any judgment or order made against it or is the subject of any execution, distress, sequestration or other process levied upon or enforced against any of its assets;

10.1.9 has any action, step, legal proceedings or other procedure taken in respect of it by its directors, shareholders, bankers, creditors or any person seeking to appoint a liquidator or an administrator or takes any such act or step itself;

10.1.10 ceases or threatens to cease to carry on business; or

10.1.11 any event occurs, or proceeding is taken, with respect to the other party in any jurisdiction to which it is subject that has an effect equivalent or similar to any of the events mentioned in Condition 10.1.3 to Condition 10.1.9.

10.2 Without limiting its other rights or remedies, Abacus may suspend provision of the Goods under the Contract or any other contract between the Customer and Abacus if the Customer becomes subject to any of the events listed in condition 10.1.3 to condition 10.1.9, or Abacus reasonably believes that the Customer is about to become subject to any of them, or if the Customer fails to pay any amount due under this Contract on the due date for payment.

10.3 On termination of the Contract for any reason the Customer shall immediately pay to Abacus all of Abacus' outstanding unpaid invoices and interest.

10.4 Termination of the Contract, however arising, shall not affect any of the parties' rights, remedies, obligations and liabilities that have accrued as at termination.

10.5 Conditions which expressly or by implication survive termination of the Contract shall continue in full force and effect.

11. LIMITATION OF LIABILITY

11.1 Nothing in these Conditions shall limit or exclude Abacus' liability for:

11.1.1 death or personal injury caused by its negligence, or the negligence of its employees, agents or subcontractors (as applicable);

11.1.2 fraud or fraudulent misrepresentation; or

11.1.3 any matter in respect of which it would be unlawful for Abacus to exclude or restrict liability.

11.2 Subject to condition 11.1:

11.2.1 Abacus shall under no circumstances whatever be liable to the Customer, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, for any loss of profit, or any indirect or consequential loss arising under or in connection with the Contract; and

11.2.2 Abacus' total liability to the Customer in respect of all other losses arising under or in connection with the Contract, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall in no circumstances exceed the price of the Goods.

12. PRODUCT WITHDRAWAL/RECALL

12.1 Abacus shall notify the Customer as soon as practicable of any product withdrawal or recall relating to the Goods.

12.2 If Abacus decides to withdraw or recall any of the Goods, the Customer shall co-operate fully and promptly with any request by Abacus in respect of such withdrawal or recall.

12.3 Risk and title in the Goods shall pass to Abacus at the time the decision is made to withdraw or recall.

13. GENERAL

13.1 Abacus may assign the Contract or any part of it to any person, firm or company. Abacus shall use all reasonable endeavours to notify the Customer prior to making any such assignment. The Customer shall not be entitled to assign the Contract or any part of it without the prior written consent of Abacus and on such terms as Abacus shall reasonably specify.

13.2 Abacus maintains the right to employ any sub-contractor.

13.3 Notices under these Conditions shall be given in writing and may be given by delivery or first class post to the Customer at the address stated in the Order or as otherwise notified and to Abacus at the address stated in these Conditions or as other address notified. Notices sent by first class post shall be deemed to have been received within forty-eight hours of posting. Notices delivered by hand shall be deemed to have been received at the time of delivery.

13.4 No failure or delay by a party to exercise any right or remedy provided under this agreement or by law shall constitute a waiver of that or any other right or remedy.

13.5 If any court or competent authority finds that any provision of these Conditions (or part of any provision) is invalid, illegal or unenforceable, that provision or part-provision shall, to the extent required, be deemed to be deleted, and the validity and enforceability of the other provisions of these Conditions shall not be affected.

13.6 If any invalid, unenforceable or illegal provision of these Conditions would be valid, enforceable and legal if some part of it were deleted, the provision shall apply with the minimum modification necessary to make it legal, valid and enforceable.

13.7 Nothing in these Conditions is intended to, or shall be deemed to, constitute a partnership or joint venture of any kind between any of the parties, nor constitute any party the agent of another party for any purpose. No party shall have authority to act as agent for, or to bind, the other party in any way.

13.8 A person who is not a party to the Contract shall not have any rights under or in connection with it.

13.9 Except as set out in these Conditions, any variation, including the introduction of any additional terms and conditions, to the Contract, shall only be binding when agreed in writing and signed by Abacus.

13.10 The Contract shall be governed by, and construed in accordance with, English law, and the parties irrevocably submit to the exclusive jurisdiction of the English courts.

Abacus suggested wetroom design tips

1. The installation of a wetroom can create a modern, designer look to any bathroom and, if carefully planned and properly installed, add real value to your home. Plan your wetroom carefully. Many people talk about having a 'wetroom' but what they really want is a wet area within a bathroom, where the water is contained by some form of screen.

2. It is important to plan the exact location of the wet area within the room and the type of screen required to contain the water. The screen could be a tiled wall, a piece or pieces of glass, or a combination of both wall and glass. The size of the wall or glass panel is also very important. It needs to be large enough to contain the water and you may need to consider a glass panel with a 350mm return panel to effectively contain the water in the wet area.

3. Take into account the floor substrate upon which you wish to install a wet area. If it's a solid or concrete floor, you may need to include a raised area in which to house the drain and waste. A 40mm high shower tray with 90mm sub-element is perfect for this type of installation and creates a raised wet zone.

4. If the wet area is housed on a timber floor, and the drain and waste can be sited in the void beneath the floorboards, then there is an option to install either a 40mm high, low level wet zone shower base or a 30mm level access shower tray. The level access solution makes for a 'seamless look' to the floor without the need to step up into a shower tray.

5. Carefully consider the placement of the drain within the shower tray. If the drain placement is a problem within your installation, we can make a bespoke shower tray solution to suit your needs.

6. Due to the very nature of a wetroom being wet, we would recommend the entire installation area be properly waterproofed prior to tiling. This includes the floor and walls and our Elements waterproofing boards and installation kits will, if properly installed, guarantee a perfectly waterproof environment, protecting your investment for years to come.

7. Wetrooms are also ideal environments for the installation of under-tile heating. This is very controllable in both winter and summer and offers a luxurious warm feeling underfoot as well as helping to control condensation, thereby enhancing the life of your bathroom.
