# Discover your **style...**

Want to stay up to date with the latest bathroom looks? Here are a few of the things you should consider when designing a bathroom that is right on trend...

## Colour

The era of subtle tones is over. Dare to be bold and consider using statement colours such as Dark Emerald and brushed brass to bring a touch of decadence to the space. After all, the darker palette and large patterns associated with the popular muted luxe trend are all about finding complementary colour combinations and textures that ooze opulence, creating the sense of luxury that we all love.

Our **Fabrica** range is all about colour. Available in Dark Emerald, Midnight Blue and Carbon Grey, **Fabrica** combines luxurious finishes with textured styling to create a nostalgic but contemporary feel.

[Fabrica Bathroom range – Page 70](#)

## Texture

Our bathroom experiences are governed by all the senses. As we seek to create spaces that offer a pleasurable atmosphere, we need to think beyond what the bathroom looks like but also how it feels and how we interact with it. By incorporating textures and layers into our ranges, like the new **Durer** brassware range, we have opened up a whole new world of opportunities to create a depth of experience and a tactile nature to your bathroom design.

[Durer Brassware range – Page 124](#)

## Customisation of space

Our homes have had to become versatile spaces that adapt to suit our complex routines. To best serve our sometimes dizzying lifestyles, it pays to create spaces with flexibility in mind.

The new customisable **Blend** range offers the perfect mix and match solution for personalised and practical bathroom styling.

Also accompanying the new ranges is **Fabrica Cloakroom**. Despite its slimline dimensions, **Fabrica Cloakroom** is designed to maximise internal space and is fully customisable with a choice of brassware and handles finishes at your fingertips. Ideal for those dual purpose areas, choosing furniture designed for smaller spaces can offer greater potential to diversify within the room.

## Creating your beautiful bathroom...

Close the door, light the candles and indulge in an invigorating soak. Your bathroom is your sanctuary, which is why its design should reflect your unique taste. With more than 30 years of experience helping customers to create stunning bathrooms, we understand what elements are needed for a space to be truly exceptional. From perfectly sized vanity units with essential storage to superior quality basins and countertops, we know what special touches make a space stand out.

### Size

Consider the space you have and your storage needs. Our ranges span from compact and cloakroom styles for smaller bathroom and ensembles that are limited on space to our more spacious units which are perfectly proportioned for suites and family bathrooms that require an abundance of storage.

### Basins and Countertops

Choosing between a washbasin and a vessel basin with countertop can be an important decision in the planning process and which one you decide on depends on your individual requirements and style. Thankfully, no matter which one suits your lifestyle, we have a wide selection to choose from.

### Finishes

Whether you choose to keep your bathroom co-ordinated or want to mix and match styles and textures to create a completely different look, our range of furniture finishes is right on trend. All our products are designed to be ultra hard-wearing, which will ensure your bathroom stays looking new for years to come.

### Storage

Those all-important essentials and personal items need a place of their own. Our vanity units offer ample storage for those everyday objects that we all need close to hand during our bathroom routines.

## Wall-mounted Basins

The basin is the focal point of any bathroom and forms a key part of the design aesthetic. These floating basins are streamlined, minimal and wall-mounted, which means they don't require an accompanying unit. This makes them perfect for smaller spaces and wetrooms.

## Blend

Versatility and customisation are at the heart of **Blend's** unique look. With a range of premium finish worktops and drawer units to choose from, there are a number of design and size combinations to suit your individual style. Push to open drawers and open shelf space create a high quality, boutique hotel style with plenty of storage for all the essentials.

**Blend** is available in the following finishes:

Matt White

Greystone

Sherwood Oak

Greystone 80cm Blend shelf and Greystone 80cm wide Drawer Unit with Basin Shelf Wall Bracket

## Key features

- Available in configurations from 60cm wide.
- Available in three finishes: Matt White, Greystone and Sherwood Oak.
- Compatible with all of our ceramic vessel basins.
- Handle-free, push to open drawers.

With **Blend** the number of configurations is only limited by your imagination. Below you can find examples to inspire you.

## Creativity in **your** hands...

The layout of your bathroom has a huge impact on whether or not your design is a success. **Blend** offers the ability to really personalise your bathroom composition to suit you – a symmetrical setting is simple and pleasing to the eye, whereas an offset configuration can bring added interest and the opportunity to balance the composition with other elements such as a mirror.

Three distinct finishes gives you the opportunity to make your bathroom personal to you. Mix and match between Matt White, Greystone and Sherwood Oak finishes or co-ordinate with a colour-matched combination. Additional personal touches such as the optional black framed Basin Shelf Wall Bracket, which can be used as a practical towel rail, or the choice in complementary brassware can easily craft a boutique hotel feel.

# Lighting Regulations

All installations must comply with guidelines which are based on a zonal concept. The diagram below illustrates this concept and must be followed to ensure the safe installation of electrical appliances in the bathroom. These regulations apply to domestic installations only. Installations must be made in accordance with the current IEE wiring regulations and relevant building regulations. HiB recommends that all electrical bathroom products should only be fitted by a suitably qualified, Part P registered electrician.

**Zone 1** refers to the area above the shower up to a height of 2.25 metres and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

**Zone 2** covers an area 0.6 metres wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

**Outside Zone** has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom's light is rated IP65, then the 6 means its 'Protected against Dust' and the 5 means its 'Protected against Water Jets' from a shower, tap or cleaning processes from any direction.

**First numeral** - protection against ingress of foreign bodies, E.G. Tools, dust, fingers, etc.

<b>0</b> No protection	<b>1</b> Protected against solid objects with a diameter of 50mm and over (e.g. Accidental insertion of hands).	<b>2</b> Protected against solid objects over 12mm (e.g. jointed fingers).	<b>3</b> Protected against solid objects over 2.5mm (tools).	<b>4</b> Protected against solid objects over 1mm (small wires).	<b>5</b> Protected against dust - limited ingress permitted (no harmful deposit).	<b>6</b> Totally protected against dust.

**Second numeral** - protection against ingress of liquids.

<b>0</b> No protection	<b>1</b> Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect.	<b>2</b> Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.	<b>3</b> Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.	<b>4</b> Protection against splashing. Liquid splashed from any direction shall have no harmful effect.	<b>5</b> Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.	<b>6</b> Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.	<b>7</b> Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.	<b>8</b> Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.
