CREATING BATHING RITUALS

Hello... and welcome to **Bathroom Origins**

At Bathroom Origins, we're genuinely passionate about great bathrooms; and we're excited to offer you a collection of bathroomwares inspired by our love of design, art and fashion.

Bathrooms are in our blood! Frixos was immersed in his father's top-end bathroom business at an early age, so what he doesn't know about bathrooms is not worth knowing! And Sofia comes from a family of fashionistas, with a background spanning everything from high street fashion to high end design. Together, we founded Bathroom Origins. That was 25 years ago, and we've not looked back!

It's our mission to inspire you, and to help you transform your bathroom into a space which truly reflects your individual style and bathing rituals.

Great design can be yours, whatever your budget or your style. Our products range from surprisingly affordable options to high end luxury; from on-trend industrial styling to timeless classics; and from understated chic to gloriously gorgeous glamorous glitz. And every single one of them is chosen - or designed - personally by us, reflecting our appreciation of quality materials and craftsmanship and our commitment to affordable excellence.

We hope you love our products as much as we do; and that together we can transform your bathroom into a truly special place.

Sofia Frixos

Transforming your bathroom into your own personal sanctuary

Your bathroom is your space... quite possibly the only room in the house where you can be totally private and uninterrupted... and in today's busy world, having a sanctuary which gives you even a few minutes of real 'you time' is a precious thing.

Creating your special place is a lovely thing to do. There are no rights or wrongs, it simply has to work for you. Why not try some of these simple ideas for turning a bathroom into your own private retreat?

Choose a mirror you love! Mirrors are so much more than just a place to check your 'look'. They're a great design feature; and they reflect light and space, making your bathroom feel bigger and brighter.

Lighting can really set the scene. By using a combination of task lighting and ambient feature lights, you can create so many lovely moods.

Use the fluffiest, softest, most sumptuous towels and robes for that feeling of everyday luxury. Add a matching bath mat, to keep your feet toasty warm and your floor dry!

Organise your toiletries in beautiful storage holders: think baskets, hampers, even stylish boxes. Hiding all your 'potions and lotions' in lidded storage helps turn your bathroom into a gorgeous, clutter-free haven.

Free up your floor with wall-hung storage and shelving; not only will you get more 'leg room', you'll also make your bathroom feel bigger. There are options for even the smallest space; try matching your wall colour for an effortlessly chic look.

Hang art on your walls, rest it on shelves, pop it in the window. Glass and porcelain are the obvious choice, but you can also use drawings, paintings and prints, especially in areas which don't get too much water-splash.

Harmonise your 'hardware', because harmony is far more soothing than discordant mismatches. Today's accessory sets offer you so many styles and finishes, with everything from towel rails to soap dispensers.

Add relaxing scents to your bathroom to give a soft background aroma. Reed diffusers and scented candles are perfect for creating a tranquil and soothing environment.

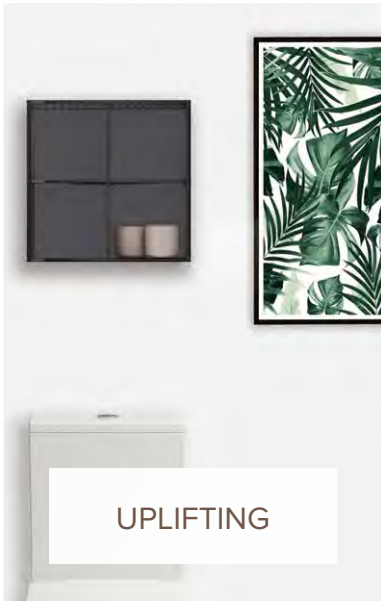

Bring the outside in. Just being around plants is proven to increase personal well-being, and they purify the air too. Plants also add shape and interest, and soften what can be a rather 'hard-edges' room.

And finally, if you have space, add a comfortable chair to relax on. Some people even sit and chat whilst their partners are in the bath; and why not, if that's what works for them?

My bathroom is one of my favourite rooms in our house – no surprise there I guess! – it really is a sanctuary, a haven, a place for a little precious 'me' time. I hope these ideas will help you create your own special space too.

Sofia

ABOUT OUR BRANDS

Combining great design with ultra-high specification and genuinely affordable prices, this collection embodies what Bathroom Origins is all about... indulgent inspired luxury without the designer price tag. Commissioned especially by us, for you, from some of the best (but possibly not best known!) designers and manufacturers in Europe; each Bathroom Origins piece is a product of our personal input, our attention to detail, some even say our obsessiveness, about the style, quality and feel of everything we offer you.

Sonia, is a cool contemporary collection of bathroom accessories and mirrors that encapsulates the very essence of urban, luxe-living. Exclusively designed and manufactured in Spain, Sonia utilises only the finest materials, including solid brass and are hand-finished to exacting standards that deliver quality, looks and longevity.

Of proportion, curves and enviable detail that could only be Italian, the Gedy collection includes accessories in ceramic, wood, stainless steel, glass and plastic that offer a one-stop-solution for projects ranging from complete bathroom schemes to inspired, individual finishing touches. An elite member of the Italian design pack for over 60 years, Gedy has become renowned for both its trend-setting style and work with international product designers including Mauro Artusio, Matteo Thun and Carlo Vietri.

URBAN

Strong, uncluttered lines and simple, pared down shapes immediately set the Urban range apart from other, inferior accessory and shower tray collections. Defined by sublime attention to detail, Urban bathroom accessories and signage are distinctive for their fusion of top quality, hard-wearing materials and very best of modern design.

HALO

BACKLIT LED MIRRORS

There's something so lovely about a halo – and these mirrors are certainly lovely. Bright, glowing and gorgeous, they're so much more than just a mirror... this is atmospheric wall art, at its very best.

But let's not forget they're mirrors, so they're practical too – good light and a great 'aura' from the backlit LEDs, plenty of usable mirror space and some attention to detail you possibly won't even notice...

MADE WITH
SWAROVSKI
ELEMENTS

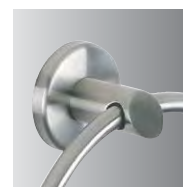

Capturing the essence of an opulent, bygone era, Oriental Crystal is the epitome of European elegance and sophistication.

Crafted from solid brass; sumptuously plated with smooth chrome, glossy black chrome or glamorous gold; and adorned with genuine Swarovski crystals, Oriental Crystal is the ultimate unashamedly statement piece.

BATHROOM ZONES

Luminaires chosen for use in bathrooms are subject to certain wiring regulations and must be selected and erected, so as to be suitable for the external influences likely to occur at the particular point of installation. Such influences are likely to include steam (leading to condensation), falling drops of water and sprays and/or jets from shower heads.

All luminaires can be assigned an IP (Ingress Protection) rating. This relates to the protection afforded by the light fitting against penetration by solid particles or moisture. The IP rating consists of two numbers. The first number relates to the degree of protection against solid particles, the second to the degree of protection against moisture.

For bathroom use, the second number is the most significant. The required IP rating for light fittings in bathrooms depends on their actual location in the bathroom. The regulations divide the bathroom into zones (see illustration) which determine the IP rating. All luminaires used in a bathroom must be protected with a 30mA RCD, in accordance with IEE regulations.

Zone 0

Interior of bathtub or shower tray -
IP68 and low voltage supply (max 12v)

Zone 1

Perimeter of bathtub or shower tray up to a
height of 2.25m above the floor - IP44.
Use IP65 where water jets are used for cleaning purposes.

Zone 2

Perimeter 0.6m wide around Zone 1 and a 60cm radius above washstands- IP44.
Use IP65 where water jets are used for cleaning purposes.

Outside of Zones

There are no stated requirements for IP. Luminaires
should be suitable for their location and provide adequate protection against
electric shock.
