309	Kitchen Solutions

Years of experience, yet still as curious as children.

At Franke, we have been looking for new solutions and innovations for over 100 years and our attitude has still not changed. In 1911 we combined traditional craftsmanship, precision engineering and a constant pursuit of innovation, three principles that remain at our core.

A story forged in Swiss precision

Our story began at the beginning of the last century as a small sheet-metal business in Rorschach, Switzerland, established by Hermann Franke. Since then, we opened up to the world and inaugurated manufacturing facilities all around the globe that led us to become leaders in the kitchen sinks segment, and home solutions altogether.

“We believe that sustainability means fairness to future generations”

Shaping our future

Preserving the environment, shaping the future.

As a company conscious of our responsibilities, we think and act today in the interests of the world of tomorrow. We work hand in hand with our partners, customers and suppliers to create a future where people can not only live but also thrive.

“We believe that sustainability means fairness to future generations” – this quote from Michael Pieper, owner of the Franke Group encapsulates our company ideals. We reconcile economics and ecology and make a proactive contribution towards sustainable development – with long-lasting products, recyclable materials and smart technologies. We use the global sustainable development goals and the United Nations Global Compact (UNGC) as a guide and framework on the path to a climate-neutral future.

Putting people at the heart of our sustainability

The foundation of our new sustainability strategy rests on the three pillars of the environment, employees and the company. When it comes to environment, we focus on the production and lifecycles of our products.

As the market leader, creating reliable and innovative solutions with real added value is both a challenge and a source of motivation.

This exceptional quality enables customers to use our products for more than two decades – conserving resources in the process.

We also feel an immense responsibility towards our employees, of which there are approximately 8700 around the world. Words like appreciation and trust aren't just empty phrases to us, they're deeply embedded in our company's DNA.

We help people to stay healthy and to make their professional aspirations a reality.

Franke is synonymous with diversity, equal opportunities, cohesion and a company culture where people want to give their best and contribute their own ideas.

Good for everyone!

Good for our partners and customers.

Good for the planet. Good work.

We believe that sustainability means planning ahead.

We see environmental action as an opportunity and this attitude is also reflected in Franke's products.

Less plastic and less waste

Plastic bottles have a particularly stark effect on the environment – around the world, over 1500 bottles end up in the sea every second, with our Vital filter tap, the capsule filter combines activated carbon and a high-tech membrane to reliably remove bacteria, viruses, microplastic, rust, medication residues and hormones. Customers are therefore guaranteed clean drinking water which is equally good for their health and the environment.

Saving water has never been so easy

Another star in Franke's range of products is the Atlas Neo Sensor. This innovative technology allows you to switch the water flow off and back on again even when your hands are covered with soap – in a completely touch-free system. This saves around three litres of water every time you wash your hands and keeps the tap spotless. The sensor will switch off automatically after 30 seconds.

Clean air for maximum energy efficiency

Our hob extractors offer maximum energy efficiency. For example, the extremely powerful Mythos 2gether is classed in the best possible energy efficiency rating A+++ thanks to its innovative and brushless motor.

FRANKE

HOME SOLUTIONS

Solutions that work together

Our kitchens are places to live, we cook there, eat there, spend time together there, more often than not all at the same time. Having observed how we use our kitchens; we have developed home solutions rather than simple appliances. Our individual products work together in functional systems to enhance your life and thanks to the perfectly matching colours, designs and combinations, are also aesthetically pleasing to the eye. Easier to enjoy every moment.

Food preparation areas

Taps, sinks and waste management systems.

Award-winning, smart, eco-friendly taps perfectly complement elegant, spacious bowls that combined with accessories have everything you need, always at hand. All of the highest quality, highly durable and hygienic materials including our stainless steel or exclusive Fraganite.

Hoods

Wall, ceiling, built-in, island.

Every kitchen has their own specific requirements, so we created a range of hoods that have been designed for you with technology, efficiency, lighting and beautiful designs. Discover the available colours, shapes and unique technologies from built-in screens to air purifying systems.

Appliances

Ovens, microwaves, hobs.

When we design our appliances, we do so with you in mind, so that we can offer functional solutions that are easy to use, smart in their features and beautiful to look at.

ations Inspir

There is no place like home, which is just as unique as we are. Each one with different tastes, preferences and needs. To help you get inspired and create the kitchen environment of your dreams, and to enjoy it every day, we developed three different **families** of products.

Mythos

A passion for the best

Our premium range. Technology meets design, while even the smallest details are carefully sought-after. This **family** sets its goal to the highest levels, combining the very essence of functionality with that of beauty.

Maris

Family in the kitchen

A **family** inspired by families. Cosy and functional, for savouring the heartwarming experience of a **family** get-together. Maris' philosophy is simple: welcome anyone, anytime with the pride and joy of a homemade dinner.

Smart

Straight to what matters

Essential in its perfection, to jump to what matters the most: bringing joy to your kitchen. A **family** created to fulfill any need and preference.

Your kitchen, your way, but however you bring joy home, **you can count on us.**

Choose a material that's right for you

Shiny or matt; smooth or stone-like, extra-strong or super trendy. Your kitchen can speak volumes about you, so every detail counts. To offer you the chance to create your very own perfect kitchen, our range of materials are designed to please any taste, match any style and resist any endeavor. Discover each material's precision-engineered character and unique benefits to choose the one that suits your needs.

Fragranite

An exceptionally tough material, highly resistant to burns, dents, chips and stains. Pioneered by Franke, it's a unique material with a subtle sheen that is warm to the touch thanks to its 80% of granite. Also, Fragranite treated with Sanitized® reduces bacteria and microbe growth by 99%.

Tectonite

Heat, shock and impact combined with unique design freedom makes Tectonite sinks the ultimate choice for hardworking, stylish kitchens. New technology represents a giant leap forward for synthetic materials, whilst allowing for exciting minimalist designs.

F-Inox Technology

An exclusive Franke coating able to group water molecules and allowing you to dry your sink without ring stains. Manufactured with three layers: Stainless Steel, PVD coating and exclusive nano coating making it highly resistant to scratches, stains and heat up to 350°. It's easy to clean and dry, thanks to the lotus effect, it boasts hydrophobic and oleophobic qualities and has long-lasting durability.

A real and long-lasting beauty formula that you can appreciate from our Masterpiece family.

Brushed

Polished

Silk

Stainless Steel

Whether you prefer the more reflective qualities of the polished finish or the more subtle look of the silk or brushed finishes, which give a more matt sheen, there is a Stainless Steel solution for you. Any Franke Stainless Steel product is made from premium quality chrome nickel steel, which looks stunning and is highly resistant to staining, rust and corrosion - plus it won't chip, craze, flake, or break. If Stainless Steel is one of the most popular materials in the kitchen, it's for good reason.

PVD Coating

PVD, standing for 'Physical Vapor Deposition', is a coating technology that makes tapware even more resistant to abrasions, scratches and corrosion and offers exceptional aesthetic features as well. A tap treated with a PVD coating even resists UV rays and makes fingerprints less visible in a busy kitchen. Available in different finishes, with chrome remaining the most popular, there are now an array of other stunning finishes to choose from. From solid stainless steel, which combines beauty with durability, Industrial Black, Copper or Gold, you really can find something to suit every style of kitchen.

Gloss White

Graphite

Ceramic

Ceramic sinks have a smooth, impervious surface, which stands up to heat, staining, impacts and resist to all standard household chemicals with ease. Ceramic sinks have been a popular choice for years and create a classic combination with a variety of work surfaces such as wood, glass and granite.

Select your perfect sink

The kitchen sink is seen as the heart of the kitchen, let your imagination run free with a range of options to help maximise space and accentuate the look of the room. The following information will help to ensure that your ideal sink is the perfect fit for your kitchen.

Inset sinks

Inset sinks are installed from above into a pre-prepared hole in your worktop. It gives you the widest range of sink shapes, sizes and styles to choose from.

Undermount sinks

Undermount sinks are installed underneath the worksurface and therefore require a solid surface worktop such as granite or wood. They are not compatible with laminate worksurfaces.

Belfast sinks

Belfast sinks can be used as either a freestanding feature with brackets or sit on top of base units.

Measuring your cabinet width

It is essential to correctly measure the cabinet width where your sink will be installed. The bowl (or bowls) will need to fit into this space. Each sink in this brochure will show a cabinet size, and your cabinet width needs to be equal to or greater than the stated measurement.

Bowl and drainer configuration

The type and position of your bowl depends on how you intend to use your sink. If you like room to clean large items like grill pans, a larger single bowl may be best for you, or for a multi-functional purpose, you may prefer the versatility of two separate working bowls. The drainer location is also an important consideration. For many sinks you will need to choose the specific version you prefer – with the drainer on the left or right hand side. Conversely, other sinks are reversible which indicates the drainer can be positioned on either side.

Single Bowl

1½ Bowl

Double Bowl

LHD or RHD indicates whether the drainer on the sink is found to the left or to the right of the main bowl.

LHSB or RHSB for sinks without a drainer but with more than one bowl, this indicates which side the small bowl is positioned.

Plumbing kits

For all single bowl sinks: Siphon 1 Plumbing Kits **PRICE: £27**

For all 1.5 and double bowl sinks: Siphon 2 Plumbing Kits **PRICE: £39**

Franke Siphon Plumbing Kits are designed to assist in optimising the underside of the cabinet space and in many cases provided for better utilisation of under-sink storage, have a manifold with an incline and an air vent for faster water disposal, together with a unique Waste Disposal Unit connector on both models. Made of rigid grey polypropylene, these plumbing kits are the hygienic solution to a Franke sink waste system.

Franke Innovation

Hygienic Overflow

Many Franke sinks come with a Hygienic Overflow. Removal of the logo plate reveals the overflow aperture for hygienic cleaning.

Slimfix®

The Slimfix® technology has enabled Franke designers to reduce the width, depth and profile of the outer rim, resulting in a sink virtually flush with the worktop.

Push-button pop-up waste

A patented push-button system from Franke, the pop-up waste enables you to conveniently empty the bowl without putting your hands in the sink.

Instant Boiling Water Taps

The electronically controlled Minerva 4-in-1 tap features a child safety function and filter warning light, while the Omni is the world's first mechanical 4-in-1 tap. See page 120.

Active Twist

We've created a tap that works differently; with the ability to not only fill the sink but empty it. Alongside its stylish looks, we've incorporated an innovative special feature that links the tap and sink with a twist dial. See page 165.

Box Center

Kitchen accessories become part of the sink unit and easily accessible. These large bowls are available as inset/ flushmount and undermount options, see pages 45 and 81.

Andy Chef

This compact holder includes a wooden chopping board, a professional chef knife and a strainer bowl and fits perfectly with our Box BXX range of sinks. See page 315.

Franke Rollamat

This handy accessory can be used to drain glasses or crockery, but also doubles as a trivet to protect the work surface from hot, heavy cookware straight from the oven, hob or grill.

Taps worth talking about

Instant boiling water taps

Get instant 100°C water at your fingertips, straight from your kitchen tap, with Franke boiling water taps. Perfect for making drinks or getting meals underway in a flash, they combine safety, stylish design and cutting-edge technology.

Mixer taps

Our wonderful range spans the entire spectrum of design, from traditional to contemporary. Many have features to simplify meal preparation and kitchen tasks so that the everyday can become wonderful.

Filtered water taps

Our Vital and FilterFlow taps deliver hot, cold and filtered water in high style. No need to buy bottled water and you can even do your bit for the environment.

Check if you have high or low pressure water system

If your property has a low pressure water system you will need to check the flow rating of the taps before you make a purchase. If you install a tap with a low flow rating into a low pressure water system you may be disappointed with the flow of water from your tap. In these instances it will be difficult to achieve a suitable mixed flow of water through the tap as the cold mains water is delivered at a higher pressure and will overpower the weaker hot water pressure.

If you have a high pressure system in your home, such as a combi-boiler or pumped system, you should be able to choose from the full range of taps in our range. We recommend that your plumber or installer checks the water pressure in your home before making a purchase.

This symbol indicates the tap will work with a low pressure system, delivering at least 4 litres per minute of hot water at 0.3 bar pressure.

Low pressure (Gravity-fed system)

You have a cold water tank in your attic and a hot water tank in your airing cupboard. You should choose taps which state they are suitable for a low pressure system.

High pressure (Combi-boiler system)

You have a boiler unit but no hot water cylinder. The boiler unit is usually found in the kitchen and delivers hot water on demand. You should be able to choose from most of our taps.

High pressure (Pumped system)

You have a hot water cylinder with an expansion vessel on top (often called Megaflo), usually found in the airing cupboard, but you do not have a cold water tank. You should be able to choose any of our taps.

Sinks

The sinks in the pictures do not have mixer holes. The exact position can be seen from the technical drawing next to the picture.

STANDARD

SLIM

FLUSHMOUNT

UNDERMOUNT

UNDER-GLUED

POP-UP SINK WASTE Removable remote control for opening and closing the drain. Check for the presence of a second hole.

WASTE DISPOSER For easier disposal of wet waste. (installation permitted subject to municipal regulations).

COMPLETE WITH ACCESSORIES Product supplied with accessories included.

Taps

FILTERED WATER TAPS No need to buy bottled water and you can do your bit for the environment.

INSTANT BOILING WATER TAPS Instant 100°C water perfect for making drinks or getting meals underway in a flash.

TAP WILL WORK WITH LOW PRESSURE SYSTEMS. Delivering at least 4 litres per minute of hot water at 0.3 bar pressure.

PULL OUT NOZZLE

PULL OUT SPRAY

SWIVEL SPOUT

Gas Hobs

DUAL TRIPLE CROWN Thanks to the two concentric crowns, it is possible to select various degrees of flame intensity in accordance with cooking requirements.

INTEGRATED ELECTRONIC IGNITION Gas ignition device integrated into the knob. Enables gas to be lit with no need for additional flames.

CAST IRON GRILLS Solid and non-deformable cast iron grilles ensure a stable, robust support surface, as well as lending the hob an elegant, professional appearance.
Optional

DUAL CROWN The flame is distributed across the two crowns, for rapid, even cooking.

SAFETY VALVE An essential device that cuts off the gas flow in the event that the flame is accidentally extinguished.

KNOBS Available in various finishes, the worktop knobs can be matched to the ovens, for a perfectly coordinated look.
Optional

CAST IRON GRILLS Solid and non-deformable cast iron grilles ensure a stable, robust support surface, as well as lending the hob an elegant, professional appearance.

LOWERED COOKING SURFACE The cooker top and burners are recessed into the kitchen worktop, for the flattest possible surface.

Induction hobs

BRIDGE/ FLEXI ZONE This function enables two cooking zones to be combined and used at the same level of power

KEEP WARM This function keeps food hot after cooking so it can be served at the perfect temperature, and enables liquids to evaporate slowly.

GRILLING This function is designed for grilling food according to thickness. When the ideal temperature for adding the food is reached, the hob emits an acoustic signal. The hob then stabilises the desired temperature, keeping this constant.

COOKASSIST/ SPECIAL FUNCTIONS With this function, the pre-set cooking modes can be activated, enabling the ideal power level to be selected, for perfect results every time.

MELTING This function brings food to an ideal melting temperature without risk of burning

MOKA A function designed for use with a moka coffee pot

BOILING This function brings water to the boil and keeps it at this temperature with less energy consumption.

SIMMERING This function maintains a low temperature, enabling food to be cooked for long periods with no risk of burning. Ideal for long cooking times.

PAN FRYING Function for preheating an empty pan, or a pan containing seasoning

Ovens

CONVENTIONAL COOKING For cooking any type of dish on a single shelf. It is preferable to use the shelf on the second level.

COOKASSIST This function enables all food types to be cooked fully automatically.

STEAM COOKING This function enables food to be cooked exclusively using steam - for preparing tasty, healthy dishes.

BOTTOM COOKING For browning the bottom of your dishes. This function is also recommended for slow cooking, for finishing stews and for making thick, concentrated sauces.

AUTO BREAD This function automatically selects the best baking method and ideal temperature for all bread types.

THERMOVENTILATED COOKING + STEAM This function enables combined steam cooking, for dishes that are golden and crispy on the outside and soft on the inside.

CONVECTIONAL BAKING For baking cakes and desserts with a liquid filling on a single shelf. This function can also be used for cooking on two shelves. Invert the position of the dishes you are cooking, for more even results.

BREAD For baking breads of different types and sizes. It is preferable to use the shelf on the second level.

MULTICOOKING This function allows up to 4 different dishes to be cooked at the same time without mixing flavours.

ECO FORCED AIR COOKING For cooking roasts with stuffing and cuts of meat on a single shelf. This function intermittently activates the fan at a low speed, preventing food from drying out. With this ECO function, the light remains off during cooking.

AUTO DESSERT This function automatically selects the best baking temperature and mode for any type of dessert (biscuits, sponge cakes, tarts, etc.)

PIZZA COUNTRY This cooking mode delivers the most heat in the lower part of the oven, whilst simultaneously delivering heat above, imitating the heat distribution of a wood-fired oven.

FORCED AIR COOKING For simultaneously cooking different foods which need the same cooking temperature on several shelves (max. three). This function enables dishes to be cooked at the same time without the flavours or odours leaching from one food to another.

PROVING For optimal leavening of sweet or savoury doughs and mixtures

QUICK COOKING The most powerful function. It can be used ahead of any type of cooking in order to rapidly reach the selected temperature, before proceeding with the desired cooking function.

GRILL For grilling chops, skewers and sausages, cooking vegetables au gratin or giving bread a golden crust. When grilling meat, it is advisable to use a drip pan to collect the cooking juices: place it one level below the grill and add 200 ml of water.

FAST PREHEATING For rapidly preheating the oven.

TOP COOKING (for gas ovens)
This function can be used for putting the "finishing touches" on cooking. Also ideal for baking and browning.

TURBO GRILL For roasting large pieces of meat (leg joints, roast beef, whole chickens). It is advisable to use a drip pan to collect the cooking juices: place it one level below the grill and add 500 ml of water.

PYROLYTIC CLEANING Eliminates cooking residues by means of a very high temperature cycle

BOTTOM COOKING (for gas ovens)

MAXI COOKING For cooking particularly large cuts of meat (over 2.5 kg)

PIZZA This function automatically selects the best baking temperature and mode for any type of pizza.

STEAM CLEANING The action of the steam that is released during this special low-temperature cleaning cycle enables dirt and food residues to be removed with ease. Pour 200 ml of drinking water into the bottom of the oven and activate the function for 35 minutes at 90°C. Activate the function when the oven is cold, and leave to cool for 15 minutes at the end

Microwave

MICROWAVE For fast cooking and heating of food or beverages.

COMBINED GRILL + MICROWAVE To cook and brown dishes quickly by combining the microwaves with the grill.

AUTOMATIC DEFROST For rapid defrosting of different food types - simply select the weight

FORCED AIR COOKING For simultaneously cooking different foods which need the same cooking temperature on several shelves (max. three). This function enables dishes to be cooked at the same time without the flavours or odours leaching from one food to another.

TURBO GRILL For perfect results, combining the action of a grill and a fan oven.

STEAM COOKING For steaming food such as vegetables or fish, using the steamer provided.

COMBINED TURBO GRILL + MICROWAVE For cooking and browning food quickly, combining the functions of a microwave, grill and fan oven.

AUTO FORCED AIR + MICROWAVE COOKING For rapid oven cooking and optimal results. Use pans that are oven and microwave safe.

FAST PREHEATING For rapidly heating the oven before a cooking cycle.

FORCED AIR + MICROWAVE COOKING For preparing oven-cooked dishes fast.

GRILL For browning, grilling or cooking dishes au gratin.

AUTOMATIC REHEATING For reheating ready-to-eat food, both frozen and at room temperature.

COOKASSIST/ SPECIAL FUNCTIONS With this function, the pre-set cooking modes can be activated, enabling the ideal power level to be selected, for perfect results every time.

COOKASSIST/ SPECIAL FUNCTIONS With this function, the pre-set cooking modes can be activated, enabling the ideal power level to be selected, for perfect results every time.

COOKASSIST/ SPECIAL FUNCTIONS With this function, the pre-set cooking modes can be activated, enabling the ideal power level to be selected, for perfect results every time.

Service and support - we're here to help.

**At Franke, we design and manufacture
all our products to work exceptionally well
and last for many, many years to come.**

And to help keep it that way, our expert team are always on hand to service and repair your boiling water taps, waste disposal units and cooker hoods, both in or out of warranty.

Offering **UK-wide coverage**, our technicians can visit any location at your convenience; doing whatever is needed to get things up and running again as soon as they can.

What's more, our Manchester-based consumer care team can provide further After Care service, with spare parts available from our Central Services website.

Guaranteed peace of mind

We're so confident in the quality of our products, that every Franke sink is guaranteed for 50 years, while our waste disposal units are covered for 10 years – more than any other brand.

In addition, all our sinks are fully compliant with **BS EN13310** and all our manufacturing processes are **ISO9001** certified.

Franke taps are guaranteed for 1 year on the finish (5 years for Stainless Steel taps) and 5 years on valve mechanisms and working parts. The guarantee on filtered and instant boiling water taps is shown on the relevant page.

Franke Appliances & Hoods are guaranteed for 2 years. The guarantee covers the cost of parts and labour in the event of a breakdown, caused by mechanical or electrical failure of the appliance.

For details on our warranties visit

kitcheninnovationaward.de

Bring an elegant, artful look to your kitchen and home with the on-trend metallic colours of our latest Mythos Masterpiece family. Discover F-Inox, an exclusive Franke coating that groups water molecules and allows you to dry your bowl without ring stains. Water repellent and scratch-resistant, this futuristic coating also fears no boiling water. A real and long-lasting beauty formula that you can appreciate from all our Mythos Masterpiece bowls.

All prices are inclusive of VAT

Showing off your creative side doesn't have to stop at the bowl as the Mythos Masterpiece collection also includes our Atlas Neo and Eos Neo taps plus the Atlas soap dispenser in the same trio of metallic finishes. Match components in the same shade for a perfectly aligned look. Or mix things up to create a combination that's uniquely yours. You can also take your pick from our range of matching components, with waste kits, push knobs, overflows, air switches and food waste disposer flanges available in the same metallic shades - available at Central Services on 01782 599258.

Bowl

Exclusive to the Mythos Masterpiece bowls

Giving the BXM bowl a thoroughly modern makeover, the Mythos Masterpiece collection adds three contemporary colour choices; beautifully blending exceptional aesthetics with uncompromising quality and allowing consumers the freedom to create a look like no other. On top of the durable Stainless Steel body's in on-trend metallic colours, we have a layer of our innovative F-Inox Technology. This unique coating not only helps to prevent fingerprints and marks, but also makes the bowl easier to clean. For further protection, every bowl is also supplied with a coordinating wire grid. Perfectly matching your chosen finish to stop pots and pans scratching the bottom of the bowl, preserving its looks longterm.

Maris

Quiet Bowl

The new size of silence.

Our newest and extra-large stainless-steel Maris Quiet bowl has been designed for you to experience silence and quietness while still going big with your cooking skills and imagination.

This wide single bowl is in fact equipped with our exclusive Quiet Pad System, a double coating pad that reduces noise by 20%. And for you to savour cooking in maximum tranquility, hygiene and safety, the new Maris Quiet comes with an easy-cleaning basket strainer which collects waste.

It dreams big

Big bowl version measures 82 cm.

Silent and beautiful

Equipped with our invisible Quiet Pad anti-noise system to reduce noise up to 20 dB.

Hygienic and safe

Big 7" Waste Kit with basket strainer waste.

Everything flows

Continuous flow of water thanks to the waste collection.

Mythos Bowls

Precision is more than a detail

All prices are inclusive of VAT

With the sophisticated design of Mythos bowls, they integrate themselves perfectly in all environments to satisfy different space and style needs.

With its silhouette created to surprise and enchant, this bowl knows how to unite refined elegance and high functionality so much so it won the IF Design Award 2020.

The variation in its radius enhances its minimalistic characteristics; the extremely fine rim naturally highlights its surfaces; the detailed precision in details is easy on the eye, yet satisfies the desire for practicality and efficiency.

Superior quality certified by Franke's centennial tradition.

Extremely fine rim

The exclusive 6mm border marvellously frames the new Mythos sink, creating a seamless surface.

Different Radii

The upper radius is 25 mm, while the bottom of the bowl radius is 10mm: unique features, that at the same time give its form both beauty and optimal functionality for cleaning the sink.

Waste covers

The flush brushed steel cover integrates itself within the Mythos sink, elegantly hiding waste to ensure maximum formal cleanliness

Accessories

Every detail is designed to make each gesture simple. Creativity and functionality: The secret of Mythos accessories.

Fragranite Maris Bowl

Spectacularly big.

All prices are inclusive of VAT

A bowl that satisfies all round

Guests are about to arrive, dinner is set, the show is almost on, but you need space to unleash your creativity and be organised. And here's when the Maris Fraganite Bowl comes to the rescue. It is so spectacularly big that can easily fit baking trays, pots and pans to be washed with maximum ease. Plus, it is made of our exclusive Fraganite, a material able to last a lifetime, resist heat, easy to sanitise and that incorporates silver ions to help prevent bacteria growth.

Match to your kitchen

The Maris Fraganite bowl is the ultimate improvement to your kitchen. Our products offer modern looks, clever functions and plenty of space – they combine design and functionality. With a Maris bowl you have a product that simply fits and creates a lot of pleasure and convenience.

A perfectly finished bowl

Our bowls are beautifully designed minimalist objects that will blend into your kitchen and simply belong. Moreover, the bowls are offered with a drain cover and hidden overflow.

Delightfully long-lasting

The bowl includes quartz, one of the hardest materials known to man, and is resistant to temperatures up to 280° C*. It's also resilient to impact and thermal shock, and also scratch-resistant.

Amazingly hygienic

What would a bowl be if it wasn't easy to clean? Our bowls are simple to wash and particularly hygienic because they are enhanced with Sanitized, a material that contains silver ions that reduce the growth of bacteria and microbes by 99%.

A vertical photograph on the left side of the page showing a kitchen scene. At the top, a window with a dark frame looks out onto green foliage. Below the window is a rustic stone wall. A dark, round ceramic sink is undermounted to a light-colored countertop. In the foreground, a wooden cutting board holds two green pears and a bunch of green onions. A black and white patterned cloth is partially visible at the bottom left.

Ceramic Under mount

Instant Boiling Water Taps

Cook vegetables, create pasta dishes, sterilise babies bottles and make tea or coffee quicker than ever before with 100°C boiling water available instantly.

Please check your domestic water pressure in relation to the tap operating pressure before purchase.

Each filter lasts around 6 - 9 months and replacing the filter is as easy as changing a lightbulb.

Minerva 3-in-1

Minerva 4-in-1 Electronic Range

The electronically controlled Minerva 4-in-1 tap delivers 100°C boiling, warm, cold or cold filtered water in an instant.

The Minerva 4-in-1 Electronic features the M-Box

For a faster, flawless installation our popular Minerva 4-in-1 taps now feature the Franke M-Box. Incorporating a Franke Pro M filter, inlet combination, mixing valve set, gasket set and control box in a single unit, the M-Box tidies pipework and allows for horizontal or vertical installation in as little as 20 minutes.

Omni 4-in-1 Range

The Omni 4-in-1 Range

Omni is a complete system, including tap, under sink)boiler and filter. The filter provides high quality drinking water and also protects the boiler from limescale build-up. Each filter lasts around 6 - 9 months and replacing the filter is as easy as changing a lightbulb. Virtually no tools and minimal plumbing skills are required for installation.

Omni is safer than a traditional kettle in so many ways; there are no cords which can be pulled to avoid any nasty accidents as on a kettle. The childproof push-to-activate lever helps to keep boiling water away from little hands. The lever is also spring loaded to switch off instantly if any splashes occur. A child safety clip is provided for total protection from curious little hands or visitors to your home. All this and the patented chassis engineering means the tap is never too hot to the touch. It stays cool even when producing boiling water.

Minerva 3-in-1 Range

The Minerva 3-in-1 Range

The Minerva 3-in-1 tap provides hot, cold and 100°C boiling water. The humble kitchen tap is transformed into a space-saving, time-saving helper with this boiling water tap and there are 3 stylish designs to choose from. Safety is assured with a two-step safety handle, while the fully insulated spout and handle ensure that they both stay cool to the touch. The Minerva system features a space-saving water tank that fits discreetly into your kitchen so that boiling water is always ready when you need it.

Vital Capsule System

Small filter, bigger benefit.

For more information on the Vital
Capsule System scan here.

Just what makes the Vital system such a big deal?

It's the small but mighty capsule filter.

This unique design is not only the smallest in the world, but also the first to combine activated carbon with a high-tech membrane capable of filtering and purifying water. Adapting to your usage needs and lifestyle, it's available in two variants - **High Flow** and **High Performance**.

- Enjoy pure, great tasting water directly from the tap
- Compact over sink design doesn't take up valuable cupboard space
- Removes contaminants while retaining vital minerals
- LED light indicates when the filter needs to be replaced
- Filter is quick and simple to replace

Save money and reduce plastic waste

Helping to lessen your environmental impact, the Vital system can help to reduce plastic bottle waste by 99%¹ and save families up to €400 per year².

Filter value parameters

Scope: 3.5L / min at 3 bar

Temperature range: 1 - 38°C (34 - 100°F)

Pressure range: 1.0 - 6.8 bar (14.5 - 100 psi)

Capacity: Up to 500L (132 gal), depending on water quality and pressure

1 Calculation basis: weight of the Vital filter capsule = 33.5g, average weight of a 1 litre PET bottle = 35.0g, 1 Vital filter capsule replaces 500 PET bottles, then 33.5g divided by 500 x 35, 0 g = 0.2% 2 Base of calculation: an average family of 4 consumes about 3,000 liters of water per year at the average price of EUR 0.20 per liter of mineral water; This results in a cost of EUR 600 per year compared to EUR 200 for six Vital filter capsules (recommended usage period 1 year).

Vital Capsule System

High Performance filter designed to deliver pure, great tasting water

Our Vital system's filter is not only the smallest in the world, but it's also the first to effectively combine activated carbon with Franke's patented membrane.

■ Pre-filter

The first line of defence, the pre-filter captures larger particles, eliminating coarse contamination such as rust.

■ Membrane*

The high-tech membrane is so ultra-fine that it retains microplastics and removes harmful germs.

■ Activated carbon fibre

A naturally effective filter that's been proven over decades, activated carbon can remove impurities such as chlorine, pesticides and hormones; it also removes unpleasant tastes and odours.

■ Water flow

Having passed through the different layers, you can be sure that the water flowing into your glass is completely free of contaminants.

Two filters to suit all conditions

Tailored to suit the water quality wherever you live, the Vital Filter system is available with two different filter types – the High Performance filter or the High Flow version.

*High Performance filter only

High Performance Filter

Delivering up to 500 litres of fresh drinking water straight from the tap, the High Performance filter is particularly suited to situations where the water quality remains within the limits shown in the table below. If these are exceeded, you should choose the High Flow filter, which is designed to help increase the water flow.

Prefilter

With a mesh 20 times denser than that of normal domestic water filters, this is highly effective at trapping rust, debris and fine sediments, ensuring considerably cleaner water.

Activated carbon

Activated carbon reduces chlorine, unpleasant tastes and odours and many other contaminants. Made from coconut shells, this layer has even smaller pores than other types of activated carbon filters, for water that is safe and good to drink.

Standard flow rates

Depending on the available water pressure, the High Performance filter capsule offers the following initial flow rates.

1,0 bar	2,0 L/min
2,0 bar	3,0 L/min
3,0 bar	3,5 L/min

High Flow Filter

Our High Flow filter gives you both pure, safe, great tasting tap water combined with an unparalleled flow rate in areas where it may be necessary to increase this. Featuring an activated carbon body and equipped with a pre-filter casing, it is the ideal solution in situations where our High Performance Filter may become affected by above-average sediment levels.

Standard flow rates

Depending on the available water pressure, the High Flow filter capsule offers the following initial flow rates.

0,5 bar	1,5 L/min
1,0 bar	2,5 L/min
1,5 bar	3,0 L/min
2,0 bar	3,5 L/min
3,0v bar	3,5 L/min

Water quality indicators

The High Flow Filter Capsule has been designed for use in the water quality conditions below.

Torbidità ¹	<1 NTU
TOC ²	<2 mg/L

¹ Turbidity is considered as a valid parameter for measuring water quality. WHO (2017). Quality guidelines Drinking Water, 4th Edition.

² Total Organic Carbon (TOC) is an indicator of the level of biological contamination of drinking water.

FilterFlow Taps

The stylish and superbly engineered FilterFlow range is the blueprint for multi-tasking kitchen taps. Having filtered water at your fingertips means no more cumbersome, expensive bottled water, and naturally, there is the peace of mind of knowing your family's drinking water is clean, refreshing and free of impurities. Franke FilterFlow taps remove a wide range of impurities, including chlorine, organic matter, chemical and pharmaceutical traces, metallics and sediment.

FilterFlow filter cartridges provide a unique and highly effective two-stage filtration process. The cartridges feature an outer ceramic shell and an inner carbon core. The fine ceramic has the ability to trap even the most microscopic of impurities, down to sub-micron level. The activated carbon core is manufactured from solid carbon rod, and eliminates contaminants such as chlorine and heavy metals, as well as unpleasant odours.

On average, a Franke FilterFlow tap will deliver around 2,500 litres of filtered water before its filter cartridge will need changing. And that couldn't be simpler. It's a 1-2-3 operation and as easy as changing a lightbulb.

Atlas Neo Sensor

No hassle, no germs, no hands!

All prices are inclusive of VAT

For more information
scan here.

It can be easy to get your hands dirty while preparing food, but thanks to our Atlas Neo Sensor you won't need to put them on your tap anymore, allowing for better hygiene for you and your family and fewer stains on your equipment. Furthermore, this contemporary and high-tech tap saves water and energy too, automatically stopping the water flow after 30 seconds. And if you're wondering if our incredible Atlas Neo Sensor matches your kitchen's style, rest assured knowing it's available in the most classic chrome and in the ultra-modern industrial black.

Nothing more than a gesture

Position your hand close to the tap sensor, without the need of pushing any button or pulling any lever and enjoy 30 seconds of a perfect water flow.

Preserve the environment and your wallet

Put a pan under the tap, activate it and forget about it, the water flow will stop in half a minute, saving water and energy.

Just as you like

Set the ideal temperature for when you activate the tap and if you want hotter or colder water just adjust it with the lever.

Safe and sound

The kitchen is one of the most used environments of the entire home and you can never be too cautious when it comes to hygiene: never put unwashed or dirty hands on your tap again.

Uncompromised style

Why settle on your style? Match your kitchen's mood with the ultra-modern industrial black or the classic chrome.

Notice the difference, not the volume

Quick and easy to install, our Atlas Neo Sensor's compact, battery-powered control box takes up very little space under the sink.

Easy to install, space-saving design

- Hybrid function enabling manual lever for everyday use and sensor activity for hand washing.
- The touchless and manual controls operate independently from each other.
- The sensor screen is easy to keep clean and easy to use.
- The sensor controls the touch free water temperature.
- If unintentionally started and once activated, the water flow stops in less than a second!
- The temperature on the sensor is set upon installation in the control box under the sink.
- Quick and easy plug-in installation: the tap, the control box, and the battery.

A PVD finish takes on the texture of the base material so brushed metal will remain brushed, can be applied to brass or steel. A Galvanic finish is a type of electroplating, a coating of another metal is applied to the surface of the base metal to delay the corrosion process.

Atlas Neo

Show off your creative side with the Atlas Neo and Eos Neo taps plus the Atlas Neo soap dispenser as part of our Mythos Masterpiece range. Match your chosen tap with one of our popular BXM Bowls, all are manufactured from hardwearing, hygienic Stainless Steel. Our BXM Bowls reflect our reputation for exceptional quality and extraordinary expertise in pioneering and producing such products since 1911.

Active

More than just a tap, our stunning Active Tap models are the next phase in our sustainable home solutions. The innovative ECO-Cartridge, the Active Tap gives you control over water flow and temperature, so you only use what you need.

Water saving ECO Cartridge

Designed to limit both the flow and temperature, the ECO Cartridge helps to actively save both water and energy. Thanks to the stepped lever, it is possible to reduce water usage by as much as 50%.

Stylishly sustainable

ECO Cartridge A uses up to 50% less water

The ultimate goal of our taps is to offer the best of both worlds: design and sustainability. Beautiful design options available in a range of contemporary finishes; crystal clear, anti-splash water stream thanks to a Laminar Aerator; spray jet function for precise cleaning and an Eco cartridge A able to limit the flow and temperature of the water for preserving the environment.

Active Semi-Pro

NEW

The efficiency of sustainability, made beautiful.

Active L Pull-Out Spray

Active L Swivel Spout

Sufficient water pressure at just 50% open.

Active J Pull-Down Spray

Active J Swivel Spout

Remove the lever and turn the ring nut inside to limit the temperature flow.*

Active

Twist

Think you know taps? Think again.

All prices are inclusive of VAT

With Active Twist, we have created a tap that works differently. It not only fills the sink but empties it as well. Alongside its stylish, minimalist looks, we have incorporated an innovative special feature that links the tap and sink with a twist dial. When turned, it operates the waste outlet, so the water drains away, easily, safely and hygienically.

Features and benefits

Innovative Integrated Twist Waste Control

The all-in-one design includes a special dial that when turned, operates the waste outlet, so the water drains away easily, safely and hygienically.

Eco Cartridge

Designed to limit both the flow and temperature, the ECO Cartridge helps to actively save both water and energy. Thanks to the stepped lever, it is possible to reduce water usage by as much as 50%.

Spray Jet Function

Delivering a more powerful stream, the spray jet function makes it easier to rinse fruit and vegetables and reach every part of the sink, making it easier to clean.

Laminar Aerator

The laminar aerator fitted in the spout ensures the Active Twist delivers a crystal clear, non splashing water stream, with very little noise.

Easy Clean Design

The Active Twist's fluid, curved design and rounded edges make it easier to clean.

Smart 2gether

Hob Extractor

Twice the advantage.

The best of both worlds with a range of powerful extractors beautifully merged into advanced induction hobs. This clever 2-in-1 solution guarantees maximum functionality and total design freedom.

Plus, it's best-in-class for cleaning: the surface is easy to wipe and the grease filter can be cleaned in the dishwasher. The integral water collector catches up to 200cc of spilled liquid,, while the iron grid of the hood is heat- and scratch-resistant. Also, the flush-mounted cover grid makes it easy to move pots from one cooking zone to another without the need of lifting heavy, hot pots and pan.

NEW

Mythos 2gether Glass and Mythos 2gether

Absolute elegance and top-notch functionality.

The black glass surface, united with the design of the grid makes the Mythos 2gether the perfect solution for beautiful, minimalist and high-end kitchens.

But this Hob Extractor is far from being solely beautiful: it's A+++ energy classified, yet the suction power is astounding, with a speed of 680 m3/h and a booster function. It features 4 induction zones of which 2 flexible zones for large pans, 9 levels of heat plus the booster function and timers for all zones. But all this efficiency comes at a mere 72dB at its most intensive setting.

Easy to use, to clean and to love. This is our Mythos 2gether.

Maris 2gether

Capable, durable and beautiful.

The Maris 2gether can extract up to 700 m3/hr of air from around your pots and pans located in the hob's four cooking zones. It simply turns the steam upside down and makes it disappear underneath the hob. Its 4 induction zones, 2 of which are flexible for large pans, direct touch control with one slider, 9 levels of heat, booster function and timers for all zones, make cooking extremely easy and satisfying. And the environment will be happy too, as our Maris 2gether is A++ energy rated.

NEW

Smart 2gether

Smaller, functional and smart.

The modern and pleasant design, at only 70cm, makes the Smart 2gether able to fit into a standard 60cm cabinet cut-out and leaves more space in the work area for your recipes. But its smaller size doesn't make it any less functional: it features 4 induction zones and 1 flexible zone for large pans, it's easy to control thanks to the direct touch control with one slider and great for any preparation thanks to its 9 heat levels and booster function. The Smart 2gether smartness also shows in its energy efficiency, as it is A++ energy rated and it's quietness, thanks to a reduced noise level.

Mythos

Air Hub

The purest air.

All prices are inclusive of VAT

An extractor hood and air purifier system all in one. When you think of clean air in your kitchen you usually think of cooking odours, which our Air Hub range removes quickly and effectively, but you rarely think of other polluting elements. Thanks to two separated air streams and two dedicated UV-C lights, the Air Hub hoods remove 99.99% of viruses and bacteria from your kitchen, leaving the air nice to smell and safe to breath.

With our Air Hubs, clean air is served.

Energy efficient and powerful

Thanks to their energy efficiency, our hoods have an eye for the environment, but they do not give up on efficiency, thanks their powerful blowers.

No ozone production

As confirmed by the University of Siena's laboratories*, our Air Hub removes up to 99.99% of viruses and bacteria thanks to UV-C lighting, with no ozone production and in total safety.

Air purification function

① MANUAL

Start the purifying of the air. You can switch off manually, or it will automatically switch off after 24 hours

» INTENSIVE

Maximum speed of purifying in the shortest possible time. Switches off automatically.

☾ NIGHT

Long cycle for complete purification with the minimum level of noise. Automatically switches on each night.

Sound Pro Blower

Pleasing the most difficult ears.

All prices are inclusive of VAT

Enjoy your kitchen at its best and live it to the fullest, thanks to a blower that won't bother your ears. Franke has carried out in-depth studies on the noise levels and sound frequencies of its blowers, searching for an optimal solution. Following extensive research, it succeeded in developing the latest generation technology, capable of making a more pleasant sound thanks to a reduced disturbance caused by high frequency, and, on certain models, to even contain the noise of the hood.

Turn on the hood and simply forget about it.

■ No vortex

Thanks to an innovative design, the new blower significantly reduces turbulence and vortex of the internal air flow.

■ Less noise

At maximum power, the new technology limits the noise threshold of the hood up to -6db*, or if you prefer, half the noise your ears perceive.

■ Better sound

The sound produced, reducing the disturbance caused by high frequencies, becomes deeper and more pleasant.

Downdraft

The motorised Downdraft hood allows for an unobtrusive, subtle kitchen style. The motor is situated in the cabinet underneath the hob which can be vented externally, or in recirculating mode.

AQ Sense Range

The hood every home deserves.

All prices are inclusive of VAT

Keep clean the air you breathe

The entire range of our AQ SENSE hoods feature an air quality sensor to constantly monitor VOCs (volatile organic compounds), air temperature and humidity and are designed to activate automatically when unsafe levels are detected. Furthermore, through the Franke Cloud app, you can receive real-time and constant information on the quality of the air in your kitchen. The same app also allows you to control the hood's functions via any mobile phone or tablet: turn on and off, adjust the suction speed or adapt the light settings to create a perfect environment.

Air quality sensor

Constantly monitors VOCs (volatile organic compounds), air temperature and humidity

A hood with a view*

Enjoy a 21.5" display and browse the web.

Auto function

Save energy: the suction speed will automatically start at the right level for what you are cooking and it will work until the air quality reaches a satisfactory level.

Multiple timer*

Keep track of time! And manage more than one timer at a time.

Voice control** compatible

Control your hood with just your voice! Perfect for when your hands are busy preparing and cooking your favorite dishes.

Your photos*

Enjoy your family moments on the wide screen and personalize your hood's background.

Touch Display*

In addition to keeping you constantly informed on air quality, it also allows you to easily control the hood, having its numerous features at your fingertips.

Built-in browser*

Browse the web to find the best recipes, listen to your favourite music, check on the weather or the news and get access to a world of online content

Dimmerable light*

Adjust the intensity of the light to create the perfect ambience.

Camera*

Link your Wi-Fi camera and keep everything under control.

* Exclusive feature to AQ Range FKAS A80 BK

**Voice control devices not included

AQ Sense Monitor

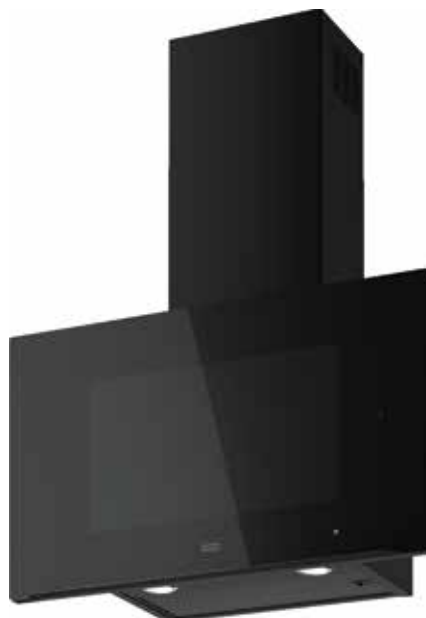

The AQ Sensor Wall Hood will constantly monitor the air quality within your kitchen and adjust the ventilation to suit. It will measure temperature, humidity and the presence of VOC's (volatile organic compounds which are harmful to health) and adjust accordingly. The AQ Sensor Wall Hood also boasts WIFI connectivity and 21" colour touch screen to enable you to watch your favourite videos and recipes via a web browser while you are cooking.

This hood is also app-enabled allowing you to control the settings via your mobile phone, or alternatively use Amazon Alexa!

Vertical Pro Hoods

Get to know the all-new angles of performance.

All prices are inclusive of VAT

Our Maris and Mythos families welcome an even more premium range. Meet the new Vertical Pro high-performance hood range featuring more power, wider shapes, and better cleaning solutions. Thanks to the Sound-Pro blower, a new, one-of-a-kind filter and wider dimensions it is now quick and easy to access the inner parts of the hood. The new design of the hood's body allows a more powerful suction of cooking fumes, an easier cleaning and a brighter cooking area.

Discover the Vertical Pro exclusive features:

- Great sturdiness
- The hood's structure integrates perfectly with your kitchen's splashback
- Better illumination on the hob
- Easier access for cleaning and maintenance
- Larger filter size for a more powerful vapour suction

Mythos

Mythos Pro

Mythos Perimetral Pro

Mythos Pro and Pro Perimetral

The exclusive premium range of our Mythos segment, available in the 90 cm size, now proudly offers LED bars able to brighten the whole induction hob; the Tunable White with dimmer function; the double intensive-aspiration producing a mere 56 DB at maximum speed, and the high-performance filter is included. Will you choose to go for the best-in-class A+++ Energy Rated **Mythos Pro Perimetral** or the stylish **Mythos Pro**, available in its exclusive matt black and stainless steel stripes?

Maris

Maris Matt Pro and Pro

The functional and durable Mythos range is available in both 80 or 90cm sizes, features 2 LED dimmable spotlight to brighten your whole induction hob and the Charcoal Filter (pg 304)s come as standard. Both are A+ energy-rated and are easy on the ears too, producing only 56 DB at maximum speed. Will your kitchen display an elegant **Maris 2.0 Pro** with its intuitive digit interface or the exclusive enamelled Matt Black panel of the **Maris Pro Matt**?

NOISE REDUCTION AND SOUND QUALITY OPTIMISATION

Thanks to an innovative design, the new motor significantly reduces the turbulence of the internal air flow. Also includes additional adjustable light temperature control 3000K and 24 hour air circulation mode. At maximum power, the new technology limits the noise threshold of the hood up to -6db, but it doesn't stop there. It also optimizes the sound produced, reducing the disturbance caused by high frequencies.

Mythos T-Shelf

Powerful, beautiful organisation.

All prices are inclusive of VAT

The purpose of design is to blend functionality and beauty, our Mythos T-Shelf island hood makes this aim its own. Industrial-styled lines meet smoky glass shelves, combining rigour and lightness in the look with a perfect 360° use of the hood, thanks to the symmetrical position of the user interface and lights.

LED Light bars

Create the perfect atmosphere with two LED light bar with dimmable function.

Intensive Speed

Enjoy your living area thanks to the Sound Pro Blower. Silence at maximum performance.

Integrated style

Matt black grease filters perfectly matching the hood design.

Smoky glass shelves

Customise and organise the space in your kitchen.

Find the look that suits your kitchen.

Mythos

T-Shelf

Powerful, beautiful organisation.

Avant Silence Island

NOISE REDUCTION AND SOUND QUALITY OPTIMISATION

Thanks to an innovative design, the new motor significantly reduces the turbulence of the internal air flow. Also includes additional adjustable light temperature control 3000K and 24 hour air circulation mode. At maximum power, the new technology limits the noise threshold of the hood up to -6db, but it doesn't stop there. It also optimizes the sound produced, reducing the disturbance caused by high frequencies.

SOUND PRO

HUSH, it's cooking time!

As kitchens become places for meeting and sharing moments at home, hoods increasingly need to combine high performances with silent motors. Following in-depth studies and extensive research, Franke developed a solution: Sound PRO.

AQ Sense Ceiling

The AQ-Sense Ceiling hood keeps the air in your home clean - constantly monitoring air quality and activating automatically if unsafe levels are detected. Constantly monitors VOC (Volatile Organic Compounds), air temperature and humidity to ensure your kitchen and home remain a fresh and pleasant environment. There's an auto and 24 hour function, Franke Cloud App and is also Alexa compatible so controlling the hood is easy with either voice or remote control.

Mythos Full Light

See your kitchen under a new light.

All prices are inclusive of VAT

Our Mythos Full Light is all you will need to see your kitchen under a new light. Its full light panel can immerse your entire environment into 5 different brightening hues, selectable with the complimentary remote control or via any of your smart devices and the Franke@Home app.

The idea of giving your kitchen the maximum sensation of space led to the entire development of this new ceiling hood, which makes its minimal design one of its biggest prides. With a slim stainless-steel frame, the hood lets air flow freely in the environment but is also ready to make you forget any cooking odour within just a few moments, thanks to the functionality of the perimetral aspiration.

Less really is more.

Premium quality

High-end premium stainless-steel and elegant white glass give a high-end look to this ceiling hood and to your kitchen.

Create your environment

The full light panel is tunable to 5 shades of white thanks to the Tunable White function, to make your kitchen match any mood and moment.

At your service

Control your hood with the Franke@Home app or with the included remote control.

Seamless & integrated

Cook in total freedom! You won't even notice the beautifully integrated hood on your ceiling, except for when you need to extract cooking odours or if you want more light in the room.

Control it with the Franke@Home App

A steamy solution

The special new steam function allows you to cook more calorie-conscious food, with no loss of flavour. And with the large internal capacity you'll have more space to steam or bake different dishes at the same time.

Telescopic Guides

Taking a hot baking tray from the oven is not an easy task. You can customise your oven and add guides as an accessory on as many levels as you want.

Smooth2Close System

The door of the Mythos oven closes softly, silently and precisely.

Mythos Coffee Machines

Coffee time!

All prices are inclusive of VAT

Let the aroma of freshly ground coffee beans help you start the morning right. With the Franke Mythos Coffee Machines, craft your coffee exactly as you like, always to a barista's standard. Whether that's a quick espresso or a silky cappuccino, the choice is yours. In a hurry? Worry not, the self-cleaning function will look after clean-up. The machines' pure and minimalist design, which comes in both sleek stainless steel and black stainless steel, also integrates seamlessly with our exclusive Mythos range, making your kitchen complete.

Stainless Steel

A statement of taste

Perfect built-in installation and unique stainless-steel frame and black finish or total black to match the Mythos product line in gallery installation

A coffee that is truly yours

- Up to 2 cups to be placed under the spouts at the same time
- Adjustable coffee quantity: 5 sizes (espresso, small cup, medium cup, large cup, mug)
- Settable coffee taste (extra mild, mild, standard, strong or extra-strong)
- Adjustable coffee temperature (low, medium and high)
- Adjustable density of cappuccino foam

An energy booster and saver

Energy saving through the programmable automatic shutdown

- Auto-start and shutdown function to schedule the time the machine will work or switch off automatically

It looks after you and itself

Easy to clean, thanks to automatic system rinsing and descaling functions

- Automatic rinsing of the system: every time the product is switched on or off
- Automatic descaling

Mythos Wine Cooler

The ideal storing environment for your wine collection which integrates into the beauty of your own kitchen. The optimal conditions usually exclusively guaranteed by an underground cellar are now akin of those our Mythos Wine Cooler can provide, with the noticeable advantage of offering you the chance to have up to 24 of your favourite bottles always at hand.

A Wine Cooler like no other

The Mythos Wine Cooler temperature can be set from 4° to 18°, ensuring your wine collection is maintained to perfection. Keeping the characteristics of your wine intact, the Anti-UV glass filters enough light through to ensure optimal preservation. The electronic display allows the temperature to be visible at all times and the LED light perfectly highlights every detail, while the 3 sliding premium oak built-in shelves bring elegance to your wine collection.

Additional Accessories

Franke innovation doesn't end with sinks and taps.

We strive to make your life easier in every aspect of your kitchen with a range of convenient and practical kitchen solutions. From dealing with unsightly household waste in a hygienic manner to effortlessly sorting waste for recycling, they are designed to save time and to incorporate kitchen essentials discreetly into kitchen units, so that you can maintain a clean, uncluttered kitchen.

Tap Brace

Connects the tap to the worktop for extra support. Variable collar fits on any model of tap. Can be used on any stainless steel inset sink.

Waste Sorter Bins

Fitting neatly into most standard cabinets, Franke Waste Sorters feature separate plastic containers to sort domestic waste into different categories such as food, cans, plastic and paper. A lid closes over the bins to contain any odours. Franke Waste Sorters are the convenient alternative to the conventional waste bin.

Standard door systems

The Franke 300 Series Sorter Systems are a useful addition to any kitchen with standard doors, fitting neatly into 450mm and 600mm kitchen base units. Each bin has a handle that can also be used to secure waste bags. The roll-out carrier is fully waterproof, simple to dismantle and easy to clean.

Waste Disposal Units

A choice of five waste disposal units designed to free the kitchen of unsightly and unhygienic organic household waste. Each unit is the essential add-on for ensuring that all Franke appliances and work surfaces remain looking immaculate. Thanks to a permanent magnet motor, Franke Turbo Elite Waste Disposal Units reach high speed in a split second, producing more torque per kilo than any other of its type. Whilst running water through the unit, food waste is instantly liquefied into fine particles that are easily flushed through the pipework system.

NB. Ensure WDU dimensions can be accommodated within the specified cabinet width.

All-In
Andy Chef

It all comes together with **ALL IN**

The all-in solution for chopping, draining, washing and store your preparations. Transforming any sink with a bowl dimension of up to 54 cm into a stylish and playful workstation, All-In is the flexible food preparation system designed to bring more flow to your kitchen and life

Eight accessories, endless uses, fits any sink*

*Up to 540mm

Prepare

Using the bamboo board, telescopic bridge, strainer and collector bowls, All-In can help you:

- Chop vegetables and other ingredients
- Collect the cut food
- Collect peeling and deal with waste
- Store prepped ingredients in the fridge

Cook

The bridge, strainer bowls and foldable pad are really useful at the cooking stage and you can:

- Rest pots and pans on the bridge while filling them from the tap
- Use the strainer to drain pasta, or other ingredients
- Stand hot pans and dishes on the foldable pad to protect work surfaces

Clean

When it's time to wash up, the bridge, strainer bowls and foldable pad can also help you to:

- Drain glasses and dishes
- Drain cutlery and cooking utensils

Tidy

Once the washing up is finished, All-In can still help you to tidy everything away, whether it's to:

- Store cleaning items in the sink
- Keep all accessories together in the storage box
- Put everything away neatly in your kitchen cabinets

All-In is compatible with the following sinks:

Antea AZG Argos, AGX Ariane, ARX Basis BFG, Galassia GAX, Largo LAX
Maris MRG, Maris MRX, Neptune NEX, Studio STX and Urban UBG
